## **Thinking Like a Mountain Towards a Council of All Beings**

### **Introduction**

In an era marked by environmental degradation and climate change, a profound shift in our relationship with the natural world is imperative. Embracing a holistic perspective, akin to that of a mountain, can guide us towards a harmonious coexistence with all beings. This article explores the transformative concept of thinking like a mountain, envisioning a Council of All Beings that unites diverse perspectives and fosters sustainable decision-making.

### **What does it mean to think like a mountain?**

To think like a mountain is to adopt a long-term, interconnected, and regenerative perspective. Mountains witness the rise and fall of civilizations, the changing seasons, and the interdependency of life forms. They embody stability and resilience, reminding us of the interconnectedness of our actions and the importance of considering future generations.

### **How can we apply this concept to our decision-making?**

Incorporating the mountain's wisdom into our decision-making involves considering the long-term impacts of our actions on all living beings. It requires us to prioritize interconnectedness and recognize the value of biodiversity. By valuing the

contributions of other species and the welfare of future generations, we can make choices that foster a thriving planet.

### **What is the Council of All Beings?**

The Council of All Beings is a metaphorical gathering that represents the collective wisdom of diverse perspectives. It includes human beings, animals, plants, ecosystems, and all other entities that inhabit the Earth. By convening this Council in our minds, we acknowledge the intrinsic value of all beings and the importance of listening to their voices.

### **How does the Council of All Beings contribute to sustainable decision-making?**

The Council of All Beings fosters a more comprehensive understanding of the issues we face. By valuing the perspectives of non-human entities, we gain insights into the needs of the natural world and the consequences of our actions. This inclusive approach allows us to make decisions that are aligned with the long-term sustainability of our planet.

### **Conclusion**

Thinking like a mountain and embracing the Council of All Beings offer transformative tools for guiding our relationship with the natural world. By incorporating these perspectives into our decision-making, we can create a more just and sustainable future for ourselves and all beings with whom we share this planet. It is through this holistic approach that we can truly move towards a thriving and harmonious coexistence with the entire community of life.
