**How do I know what model Mercury outboard I have?** All Mercury outboard engines either have an identification tag or an instruction plate that contains the serial number. The ID tag is located on either side of the swivel bracket (or transom bracket), and the instruction plate is located between the thumb screws above the steering tube.

**What year is my Mercury outboard by serial number?** Nothing in the Mercury Mariner Outboard engine model numbers or serial numbers provides year information directly. The first serial number sold in a year becomes the beginning serial number. Serial numbers between that year's beginning serial number and the next fall into the same year.

**How do you check engine hours on a Mercury outboard motor?**

**What is the lifespan of a Mercury outboard motor?** Mercury Marine Engines offer a wide selection of outboard motors that range from 2.5 to 600 hp. With the right amount of care and maintenance, you can expect a new Mercury outboard motor to last up to 3,000 hours.

**How can I tell the year of my outboard motor?** Not sure about the year of your outboard motor? The serial number can help you determine the year of your engine. Your serial number or model number can be found on the engine's mid-section. Often this plate is also marked with the engine's year too.

**How can I tell what year my engine is by the serial number?** The date code for the engine is built into the serial number after the first two numbers. As an example, a 2013 engine would read something like this, 1013426. The "13" designates it as a 2013 engine.

**Can you tell a year by a serial number?** For the serial number the typical format is to have the 4th, 5th, and 6th characters to reference when the product was built. The first character is the year date (Y) and the next two (WW), the week in that year it was made. Hope this helps you and answers your questions.

**How can I tell what year my boat is?**

**How do I know if my Mercury outboard is 2 or 4 stroke?** It really comes down to how the cylinders are lubricated. 4-stroke outboards have internal oil reservoirs and sumps which need regular oil level checks, filter replacements and oil changes at least annually. 2-stroke outboards generally have an external oil tank with the oil and fuel mixture injected into the cylinder.

**What is considered high hours on a Mercury outboard?** So a boat just sitting in a dock for months will not accumulate many engine hours, while one out cruising and fishing will. Most boat experts say that 1500 hours on a boat is considered a lot.

**Is 300 hours a lot for an outboard motor?** What are the Ideal Hours for an Outboard Motor? Most experts say you can expect to get 1,500 hours out of a gas boat engine before it needs to be rebuilt. This means you can drive at cruising speed every day, and still only use up one year's worth of driving time in ten years.

**What happens if timing is off on outboard motor?** Problems can occur even if the timing is only slightly off in one direction or the other. Some incorrect timing symptoms include: Engine knocking: Engine knocking occurs when the air-fuel mixture is ignited too soon in the cylinder. The mixture then pushes against pistons that are still trying to compress it.

**How long can an outboard motor sit without running?** As long as it's well maintained before going into storage, a boat can sit for a few months, a few years or even a few decades. Neglecting to prep it for storage, though, will necessitate massive repairs or even a total rebuild.

**Is 500 hrs a lot for a boat?** How many hours is good for a used boat? A used boat powered by an outboard motor or gas inboard with less than 1000 hours is a boat worth considering a purchase. A diesel-powered boat with 3000 to 5000 hours that has been maintained well is also a boat that may be worth owning.

**Which outboard motor is the most reliable?** Yamaha Outboard Built with innovative technology, Yamaha outboard motors are designed to maximize power, reliability and fuel efficiency when you're out on the water.

**What year is my Mercury by serial number?** Mercury Outboard The top number on the plate is the serial number, and the number directly beneath it is the four-digit
