Thrall Daughters of Lilith 1: Questions and Answers with Jennifer Quintenz

1. What inspired you to write the "Thrall Daughters of Lilith" series?

I've always been fascinated by the darker side of folklore and mythology. The character of Lilith, the first wife of Adam who was said to have been banished from heaven for refusing to be subservient, intrigued me with her strength and her rebellious nature. I wanted to explore the idea of what would happen if Lilith had children, and how they might inherit her power and independence.

2. Can you describe the main characters in the series?

The central character is Danika, a young woman who discovers she is descended from Lilith. She is drawn into a world of magic and danger as she learns to harness her powers and confront the forces that seek to control her. She is joined by her sisters, Asherah and Anya, who each have their own unique abilities and personalities.

3. What are the main themes that you explore in the series?

One of the main themes is the struggle for freedom and self-determination. Danika and her sisters refuse to be defined by their lineage or by the expectations of others. They fight for their independence and for the right to choose their own path. The series also explores themes of power, both its potential for good and its potential for evil.

4. How do you balance the supernatural elements with the real-world setting?

I wanted to create a world that felt both fantastical and grounded in reality. I use subtle touches of magic and mythology to create a sense of the unknown and the extraordinary, but I also ground the story in real-world locations and experiences. This helps to make the supernatural elements more believable and relatable.

5. What are your plans for the future of the series?

I have many more stories to tell in the "Thrall Daughters of Lilith" world. I'm working on the second book in the series, and I have ideas for at least two more books. I'm excited to continue exploring the characters and the world that I've created, and to see where the story takes me.
