Wireless and Mobile Device Security: Q&A

1. What is the primary security risk associated with mobile devices?

- Mobile devices are vulnerable to various security threats due to their portability, wireless connectivity, and personal data storage. One of the most significant risks is data breaches, where attackers can access confidential information or sensitive personal data.

2. How can businesses protect against wireless network attacks?

- Businesses can implement strong security measures such as encryption, authentication, and authorization to secure their wireless networks. Additionally, they should use firewalls and intrusion detection systems to monitor and protect networks from unauthorized access and malicious

activities.

3. What are the best practices for mobile device security?

- Mobile device users should regularly update their operating systems and applications to patch vulnerabilities. They should also use strong passwords, enable multi-factor authentication, and avoid downloading apps from untrusted sources. Additionally, it is crucial to have antivirus software installed to protect devices from malware.

4. What is information systems security assurance?

- Information systems security assurance refers to the processes and measures organizations implement to assess and ensure the security of their information systems. This includes procedures for testing, monitoring, and auditing systems to identify and mitigate security risks and vulnerabilities.

5. How does Jones Bartlett Learning contribute to wireless and mobile device security education?

- Jones Bartlett Learning, a leading provider of textbooks and educational resources, offers comprehensive courses and materials on wireless and mobile device security. These courses cover best practices, industry standards, and emerging technologies to equip students and professionals with the knowledge and skills necessary to protect wireless and mobile devices in today's dynamic and interconnected world.

Who Was Jesus? A Conspiracy in Jerusalem

By Kamal S. Salibi

Paragraph 1: The Conspiracy Question

Did the crucifixion of Jesus occur as the Gospels narrate? Or was it a conspiracy orchestrated by the Sanhedrin, the Jewish ruling council, at the behest of the Roman prefect, Pontius Pilate? Kamal S. Salibi, a prominent Lebanese historian, presents a controversial theory that challenges the traditional Gospel accounts.

Paragraph 2: Salibi's Theory

Salibi argues that the Sanhedrin, concerned about Jesus' growing popularity and possible threat to their authority, conspired with Pilate to have him arrested and executed. They feared that Jesus' teachings could incite a popular uprising against Roman rule. Pilate, motivated by political expediency, agreed to the conspiracy to appease the Jewish leaders.

Paragraph 3: Evidence from the Gospels

Salibi points to several inconsistencies and contradictions in the Gospel accounts of the crucifixion as evidence of a conspiracy. For example, he highlights the differing accounts of the day of the crucifixion, the precise location, and the reasons given for Jesus' arrest. These variations, he argues, suggest that the Gospels were altered or fabricated to support a particular narrative.

Paragraph 4: Alternative Motives

Salibi also proposes alternative motives for Jesus' death. He suggests that Jesus may have been killed by a faction within his own movement, either out of jealousy or disagreement with his teachings. Additionally, Salibi argues that the Romans may have executed Jesus as a political threat, believing that his preaching could undermine their authority in Judea.

Paragraph 5: Implications of the Theory

Salibi's theory has raised significant controversy and debate among historians and theologians. If true, it would have profound implications for our understanding of the historical Jesus, the origins of Christianity, and the nature of the Roman-Jewish relationship in the first century. However, it is important to note that Salibi's theory remains speculative and is not widely accepted by the scholarly consensus.
