What are the rules of the mind game? Level 1 sees one card dealt to each player, level 2, two, and so on up to level 12. The players then attempt to place all the cards down, one at a time, in the centre of the table in ascending order. There are no turns; players play their cards as, and when they think theirs is the next in sequence.

What is the trick to the mind game? So, the trick is this: given there is only one card of each number from 1 to 100, you have an innate understanding of how long you're supposed to wait before playing a card. For instance, if you have the 1 card you know you need to play it first. If you have the 100 card you know you must play it last.

What are the rules 21? Players receive all cards face up and the dealer's first card is face up and the second is face down. The object of the game is to get closer to 21 than the dealer without going over 21. If a hand goes over 21, it is called a “bust” or “break” and the wager is lost. In 21, Jacks, Queens, Kings and 10s count as 10.
