The Law on Negotiable Instruments: An Overview

By Hector S. De Leon

Negotiable instruments play a pivotal role in modern commerce, facilitating the transfer of value and providing liquidity to business transactions. The law governing such instruments, known as "The Law on Negotiable Instruments" (LNI), is a complex body of rules that aims to protect the rights and interests of parties involved in the issuance and transfer of these documents.

Question: What is a Negotiable Instrument?

Answer: According to the LNI, a negotiable instrument is a written, unconditional promise or order to pay a specified sum of money on demand or at a specified future date. It must be signed by the maker or drawer and be payable to the bearer or to a specific individual or entity. Common types of negotiable instruments include checks, promissory notes, and bills of exchange.

Question: Who are the Parties Involved in a Negotiable Instrument?

Answer: In a negotiable instrument transaction, there are three main parties: the maker or drawer (who issues the instrument), the payee (to whom the instrument is payable), and the holder (who currently possesses the instrument). Other parties may also be involved, such as endorsers (who guarantee payment) and drawees (who are instructed to make payment).

Question: What are the Requirements for Negotiability?

Answer: For an instrument to be considered negotiable, it must meet specific requirements specified in the LNI. These requirements include:

- Being in writing

- Signed by the maker or drawer
- Unconditional promise or order to pay
- Specifying the sum of money payable
- Designating the payee or bearer
- Being payable on demand or at a specified future date

Question: What are the Rights of a Holder in Due Course?

Answer: A holder in due course (HIDC) is a person who acquires a negotiable instrument in good faith, for value, and without notice of any defenses or claims. HIDCs have the right to enforce the instrument as if they were the original payee. This protects them from defenses that may be available against the maker or drawer, such as fraud or forgery.

Question: What are the Defenses Available Against a Negotiable Instrument?

Answer: Despite the protections afforded to HIDCs, there are certain defenses that may be available against the enforcement of a negotiable instrument. These include:

- Lack of capacity (e.g., minors, intoxicated individuals)
- Fraud in the execution or procurement
- Forgery
- Duress or undue influence
- Illegality

Transcendental Meditation: The Essential Teachings of Maharishi Mahesh Yogi for the 21st Century

Transcendental Meditation (TM) is a mental technique developed by Maharishi Mahesh Yogi in the 1950s. It is based on the ancient Vedic tradition of India and has been widely practiced for its numerous benefits, including stress reduction, improved cognitive function, and increased self-awareness.

Q: What is the essence of Transcendental Meditation? A: TM is a simple and effortless technique that allows the mind to transcend thought and experience a state of pure consciousness. It involves sitting comfortably with closed eyes and silently

repeating a mantra, a word or phrase that has been individually assigned by a certified TM teacher.

Q: How does TM differ from other meditation techniques? A: Unlike mindfulness or concentration-based meditation, TM does not require any effort or focus. The mantra serves as a vehicle to naturally lead the mind to a state of deep relaxation and inner calm.

Q: What are the benefits of regular TM practice? A: Extensive scientific research has shown that regular TM practice can reduce stress, anxiety, and depression. It can also improve sleep quality, enhance creativity, and boost the immune system. Additionally, TM has been found to have positive effects on cardiovascular health, blood pressure regulation, and brain function.

Q: Is TM a religious practice? A: While TM originated from ancient Vedic traditions, it is not a religion or a belief system. It is a technique that can be practiced by people of all faiths and backgrounds, regardless of their spiritual or religious beliefs.

Q: How can TM contribute to the challenges of the 21st century? A: In today's fast-paced and overwhelming world, TM offers a powerful tool for stress management, inner peace, and improved well-being. By promoting inner calm and clarity, TM can help individuals navigate the complexities of the 21st century with greater resilience, adaptability, and a sense of purpose.

Journey Through the Cosmic Realm: The Wrinkle in Time Quintet Boxed Set

The Wrinkle in Time Quintet, penned by the acclaimed Madeleine L'Engle, is a beloved science fantasy series that has captivated generations of readers. This boxed set includes five enthralling novels that explore themes of time, space, and the power of love: A Wrinkle in Time, A Wind in the Door, A Swiftly Tilting Planet, Many Waters, and An Acceptable Time.

1. What is the central conflict in "A Wrinkle in Time"? In this captivating novel, Meg Murry and her siblings embark on a perilous journey through the cosmos to rescue their father from the clutches of an evil force known as IT.

2. How does Meg and her companions travel through space and time? Meg and her friends use a special device called a tesseract, which allows them to fold space

and travel great distances in an instant.

3. What does the presence of Mrs. Whatsit, Mrs. Who, and Mrs. Which symbolize? These wise and enigmatic women represent different aspects of the universe: time, space, and love. They guide Meg and her companions on their extraordinary quest.

4. What is the significance of the planet Camazotz in "A Swiftly Tilting Planet"? Camazotz is a totalitarian world where individuality is suppressed and conformity is enforced. This planet serves as a stark warning against the dangers of oppression and the importance of freedom of thought.

5. How does the series conclude in "An Acceptable Time"? The final novel in the quintet brings the overarching narrative to a satisfying close. Meg and her companions confront the ultimate evil and discover the true nature of time and the power of love to transcend all obstacles.
