

# DAILY WORD PROBLEMS GRADE 6

## [Download Complete File](#)

**At what grade do you do word problems?** By the end of 3rd grade, students are expected to be able to solve word math problems using addition, subtraction, multiplication, and division (four operators). Throughout the year, they also learn how to solve two-step problems.

**How do you solve ratio word problems in 6th grade?**

**What are the steps in solving word problems Grade 6?**

**How do you teach math word problems to 4th graders?**

**What is the hardest grade?** Grade 11. Often considered the most challenging year due to advanced subject matter and preparation for college entrance exams. Reason: Preparation for college entrance exams and advanced coursework.

**Is word problems math hard?** Word problems in math can be tricky. To get the right answer, kids have to be able to read the words, figure out what math operation to use, and then do the calculations correctly. A breakdown in any of these skills can cause trouble.

**What is ratio grade 6?** A ratio is a set of numbers that associates two or more quantities. The order of the values in a ratio relates directly to the order of the quantities described. Equivalent ratios are useful in understanding a situation more deeply or in comparing multiple situations.

**How to solve rate problems in 6th grade?**

**What is proportion in math grade 6?** Proportion can be defined as parts when considered in comparison to anything whole. These grade 6 math worksheets are

also provided with answer keys, and one can find step-by-step solutions in them.

**Do 1st graders do word problems?** Learning how to solve word problems is an essential skill for first graders! It's also one of the more challenging math concepts that our young learners practice in first grade.

**What are the types of word problems for 2nd grade?** There are five major types of word problems to focus on in second grade: adding to, taking from, putting together, taking apart and comparison problems.

**What grade do you learn words?** First Grade Reading First graders will be able to read at least 150 high-frequency words ("sight words") by year's end, and typically have improved phonics and reading comprehension skills by this time as well.

**What grade do you start failing?** C is anywhere between 70% and 79% D - this is still a passing grade, and it's between 59% and 69% F - this is a failing grade.

**What is the love story of Muhammad and Khadijah?** It was the integrity of Prophet Mohammed that brought them together, as it is narrated that she had sent him an offer to work with her, after hearing about his honesty. Through a friend, Khadijah asked Mohammed to marry her. Although at the time, he had no means to pursue marriage.

**How old was Khadijah when she married Muhammad?** Khadija's uncle accepted the proposal, and the marriage took place. At the time of the marriage Muhammad was around 22 to 25 years old. Khadija was 40 years old at that time according to some sources.

**Which wife did Prophet Muhammad love the most?** Aisha remained Muhammad's favorite wife throughout his life. When he became ill and suspected that he was probably going to die, he began to ask his wives whose apartment he was to stay in next.

**What are the qualities of Khadija bint Khuwaylid?** She was a wealthy woman who had wide commercial holdings. This is in addition to her being beautiful, very famous, and well-mannered. So, these qualities won her the accolade the pure woman. All these qualities and qualifications made her attractive to many Quraishi men who wished to marry her.

**How many times did Khadija marry?** Khadija, had married twice before marrying Muhammad, her first marriage was to Abu H?le Hind. From this marriage, a son named Hind was born. She then married Atiq with whom she had a daughter named Hind (Umm Muhammad) (Ibn al-Athir, n.d., p.

**Why was Khadijah important?** According to the traditional sources, Khad?jah provided instrumental support in Muhammad's early prophethood. Her wealth allowed him the leisure to meditate, and she reassured him of the authenticity of his first revelations. She is thus often considered the first person to have believed in Muhammad's message.

**Why did the Prophet marry a 9 year old?** Why did Prophet Muhammad marry lady 'Aisha when she was only 9 years old? Answer: Lady 'Aisha was the noble daughter of the honorable companion, Abu Bakr who was loved the most by Prophet Muhammad among all of his companions.

**Did Khadija work after marriage?** Presumably yes, she continued to run her business. She was a wealthy businesswoman and widow when she met the Prophet Mohamed pbuh and hired him to take her goods to market. There is nothing to suggest that she didn't continue to handle other aspects of her business after her marriage to him.

**What does RA mean in Islam?** For the companions of the Prophet (?), we have used the abbreviation of RA, a short form of Radeyall?hu ?Anhu (??? ???? ???) which translates as "May Allah be pleased with him".

**Which Prophet wife was most beautiful?** All who saw [Juwayriya] were stunned by her exceptional beauty. Brought up as she had been in one of the foremost families of the time, she was not only beautiful but graceful, elegant, and eloquent. When Muhammad's wife 'Aisha first saw her it is said she exclaimed that Juwayriyah was "as beautiful as a fairy".

**Why was Aisha jealous of Khadija?** "Ayesha did not nurse such strong feelings of jealousy toward any wife of the Messenger of Allah as she did toward Khadija. The reason for this jealousy was that Khadija had made a place for herself in the heart of her husband which no one else could take. Muhammad Mustafa recounted her

merits night and day.

**What was the favourite color of Prophet Muhammad?** The flags of Iran, Saudi Arabia, and the Palestinian group Hamas also include the color. Why is green so prevalent in the Muslim world? Because it was supposedly Mohammed's favorite color.

**Did Khadija have slaves?** A rich widow named, Khadija, heard about Muhammad's honesty and hired him. He took a caravan of goods to Syria for her. Khadija sent her slave, Maisarah, with Muhammad. Although no one treated slaves kindly, Muhammad treated Maisarah as if he was his own brother.

**Where is Khadija buried?** The resting place of Ummul Mu'mineen Khadija(R.A) the first wife of the Prophet Muhammad ? and is buried in the Mu'alla cemetery in Makkah along with their eldest son Qasim. Khadija(R.A) is believed to have died on the 10th Ramadan...

**Who was the first woman to accept Islam?** The first woman to accept Islam was Khadijah bint Khuwaylid, the beloved wife of the Prophet Muhammad (peace be upon him). She accepted Islam immediately after the Prophet Muhammad received his first revelation.

**What did Prophet Muhammad say about Khadija?** Prophet Muhammad (saw) always remembered Khadija tul Kubra (sa) and moaned, "Never did Allah (SWT) give me a better wife than Khadijah. She hailed my mission at a time when everybody shouted against it. She lent me the support of her conviction when there was hardly a believer.

**How old was Muhammad when Khadija died?** Death of Khadija Khadija, Muhammad's first and only wife for the 25 years up to her death, died in 619 CE when she was about 65 years old. Muhammad was almost 50 at this time, and the death happened not long after the end of the boycott against Muhammad's clan.

**What did Muhammad look like?** He was large-boned as well as broad shouldered, hairless except for a thin line that stretched down his chest to his navel. His hand and feet were coarse. When he walked he would lean forward as if descending a hill [...]

**Who is the only woman mentioned in the Quran?** Maryam (Mary) Mary, the mother of Jesus, is amongst the most important women in the Quran, however, she is the only one identified by name. She is described as one of the greatest women of all time in the Quran as well.

**Which Prophet had 1000 wives?** But al-Haafiz ibn Hajar narrated in his story of Sulaymaan (peace be upon him) in al-Bidaayah wa'l-Nihaayah, vol. 2, from many of the salaf, that the number of Sulaymaan's wives was one thousand. Al-Haafiz ibn Hajar said likewise in Fath al-Baari, in his commentary on hadeeth no. 3424.

**Who first accepted Islam?** From 613 to 619 CE, the Islamic prophet Muhammad gathered in his hometown of Mecca a small following of those who embraced his message of Islam and thus became Muslims. The first person who professed Islam was his wife, Khadija bint Khuwaylid.

**Which Prophet did not marry?** The prophet Jeremiah, who apparently chose not to have children, is the only prophet who did not marry. Even in biblical times, however, there were prescribed periods of sexual abstinence in connection with rituals and sacrifices and the prosecution of holy wars.

**Why did the Prophet marry his daughter in law?** their marriage would demonstrate that it was not who their ancestors were, but rather their standing in the sight of Allah, that mattered." It has also been suggested that he wanted to establish the legitimacy and right to equal treatment of the adopted.

**Did the Prophet marry an older woman?** Khadija bint Khuwaylid Around the age of 25, Muhammad wed his wealthy employer, Khadija, the 28-or 40-year-old widow, and daughter of a merchant.

**What is the famous love story in Islam?** The best love story that history has ever known is the story of Muhammad (PBUH) and his wife Aisha. He used to watch his wife eat from the corner of his eye in such a way that it would create a feeling of romance.

**What was the relationship between the Prophet and Khadija?** Mutual love and respect characterised their relationship. Prophet Muhammad's first love, Lady Khadija, endured in his heart long after her passing. She was also his closest

confidante and gave him the encouragement and support he required to fulfill his role as a prophet.

**What did Prophet Muhammad say to Khadija?** Then Allah's Messenger (?) returned with that experience; and the muscles between his neck and shoulders were trembling till he came upon Khadija (his wife) and said, "Cover me!" They covered him, and when the state of fear was over, he said to Khadija, "O Khadija! What is wrong with me?"

**How did Muhammad feel when Khadija died?** Muhammad Mustafa forever remembered Khadija with love, affection and gratitude. During her brief illness, he kept a night-long vigil, nursing her, comforting her and praying for her. He told her that God had built for her a palace of pearls in Paradise. Her death filled his heart with deep sorrow.

**What is the world's No 1 love story?** From forth the fatal loins of these two foes, a pair of star-crossed lovers take their life--there is no more iconic love story than Romeo and Juliet. Everyone knows the story of two kids, born to battling families, fall in love. Not all romances have happy endings, as these two lovers taught us.

**What is the biggest love story of all time?** 'Romeo and Juliet' by William Shakespeare Perhaps the most famous love story of all time, the ill-fated romance between Romeo Montague and Juliet Capulet in Verona has been captivating readers for over four centuries.

**What does Islam say true love?** What does Islam say about love? The Seerah is full of stories about marriage and love that are timelessly relatable, and speak of all types of fates. Because just like rizq, romantic love is also decreed by Allah, and what Al-Wadud writes for you of love is more perfect for you than anything you could ever desire.

**Why did Prophet Muhammad love Khadija the most?** Once Ayesha (R.A) asked why he loved her so deeply. The Prophet replies: "she believed in me when no one else did; she accepted Islam when people rejected me; and she helped and comforted me when there was no one else to lend me a helping hand" (Al-Bukhari).

**Did Hazrat Khadija have a crush on the Prophet?** It was narrated that Khadijah had feelings for Prophet Muhammad, and in short, Prophet Muhammad accepted her love, and they got married. Loving Prophet Muhammad (PBUH) was the most significant event in Khadijah's life, and he reciprocated the same affection for her.

**Did Khadija work after marriage?** Presumably yes, she continued to run her business. She was a wealthy businesswoman and widow when she met the Prophet Mohamed pbuh and hired him to take her goods to market. There is nothing to suggest that she didn't continue to handle other aspects of her business after her marriage to him.

**Why was Aisha jealous of Khadija?** "Ayesha did not nurse such strong feelings of jealousy toward any wife of the Messenger of Allah as she did toward Khadija. The reason for this jealousy was that Khadija had made a place for herself in the heart of her husband which no one else could take. Muhammad Mustafa recounted her merits night and day.

**What do Shias think of Khadija?** It is generally accepted by Sunnis and Shias that Khadijah was Muhammad's favorite wife without contest, and that Aisha or Umm Salama were only the favorite of his later wives. Some use the fact that Muhammad was only in a monogamous relationship with Khadijah as evidence of her superiority to his later wives.

**Who saw Allah first?** It is proven from the authentic texts and from the consensus of the Salaf (first generations) of this Ummah that no one can see Allah with his eyes in this world , with the exception of the claim made by some that our Prophet Muhammad alone saw Him.

### **SSB Head Constable Ministerial Question Paper**

The Staff Selection Commission (SSC) conducts the Head Constable Ministerial examination for the recruitment of Head Constables in the Central Armed Police Forces (CAPFs) and Assam Rifles. The written examination comprises questions from General Intelligence and Reasoning, Numerical Aptitude and General English. Here is a sample question paper with answers:

#### **Paragraph 1: General Intelligence and Reasoning**

---

a) Which term for A is the same as M for N?

- Answer: Sister-in-law

b) Find the odd one out:

- House, Hut, Bungalow, Car, Building
- Answer: Car

c) Complete the series:

- 2, 4, 9, 18, 37, \_\_\_\_\_
- Answer: 75

### **Paragraph 2: Numerical Aptitude**

a) A train travels 400 km in 5 hours. What is its average speed?

- Answer: 80 km/hr

b) If the ratio of A's income to B's income is 4:3 and B's income is Rs. 9000, find A's income.

- Answer: Rs. 12000

c) A shopkeeper sells an article for Rs. 1200, making a profit of 20%. What is the cost price of the article?

- Answer: Rs. 1000

### **Paragraph 3: General English**

a) Choose the correct option:

- He works in a hospital. He is a \_\_\_\_\_.
- Answer: Doctor

b) Correct the sentence:

- Every house has a garden and trees.
- Answer: Every house has a garden and trees.

c) Fill in the blank:

- I can't \_\_\_\_\_ it anymore.
- Answer: bear

#### **Paragraph 4: Idioms and Phrases**

a) What does the idiom "take a back seat" mean?

- Answer: To become less involved or important

b) Identify the figure of speech in this sentence: "The wind whispered through the trees."

- Answer: Personification

c) Complete the proverb:

- A bird in the hand is worth \_\_\_\_\_ in the bush.
- Answer: two

#### **Paragraph 5: Comprehension**

Read the following passage and answer the questions below:

The sun is a hot ball of gas millions of kilometres away from the Earth. It provides the Earth with light and heat. The sun's energy is essential for life on Earth. Without the sun, there would be no plants, no animals, and no humans.

a) What is the main source of light and heat for the Earth?

- Answer: The sun

b) What would happen to life on Earth without the sun?

- Answer: There would be no plants, animals, or humans.

c) How far is the sun from the Earth?

- Answer: Millions of kilometres

**What are hand tools and power tools?** Hand tools are operated manually, and examples include hammers, screwdrivers, wrenches, and more. Power tools, on the other hand, are electrically-powered equipment such as drills, saws, and sanders. Both hand tools and power tools are used for a variety of purposes and have their strengths and weaknesses.

**Why are hand tools important in woodworking?** They are cost-effective, easy to use, and require very little maintenance. Also, hand tools do not rely on electricity or batteries, making them reliable in situations where power is unavailable. They are also portable, making them ideal for use in remote or outdoor environments.

**What is the difference between power tools and hand tools used in the workshop?** Hand tools are solely powered by your physical effort, like when using screwdrivers or hammers. Conversely, power tools require an external power source, such as electricity or a battery, to function.

**What are 5 hand tools?**

**What are the three major categories of hand tools?** Holding Tools - Clamps and Pliers. Striking Tools - Sledges and Hammers. Measuring Tools. Metal Cutting Tools - Reamers, Files and Drills.

**What is the most important tool for woodworking?**

**What is the most important hand tool?** Screwdrivers. Screwdrivers are arguably the most fundamental hand tools in any mechanic's arsenal. They come in various shapes and sizes, each designed for specific tasks. Flathead and Phillips head screwdrivers are the most common types, used for tightening or loosening screws of different shapes.

**What are the disadvantages of hand tools?** Since these tools are not using a battery or electric power source, there is no infinite exertion, meaning that a worker must exert more effort to get the same result. Due to their closer contact with the

body, hand tools can also be more dangerous and can increase the risk of personal injury.

**What power tool is used in woodworking?** Circular Saw – This is often the first power tool added to one's tool armory. This saw can be used to cut large or small pieces of wood. This saw is also smaller and very portable to move to different locations. The saw can be used to make plunge cuts, angle cuts, and rip cuts.

**Why are power tools useful to have?** Power tools were developed to make it easy to perform tasks without repetitive or vigorous hand movements. Using your hand can be tiring, and power tools help to perform simple tasks without requiring too much effort.

**Why do we use hand tools in workshop?** For a home workshop this can be a critical feature – hand tools produce much less dust and noise than many power tools, so much so that you can use them while in the same room as someone else and have less need for hearing or breathing protection.

**What is considered a hand tool?** A hand tool is any tool that is powered by hand rather than a motor. Categories of hand tools include wrenches, pliers, cutters, files, striking tools, struck or hammered tools, screwdrivers, vises, clamps, snips, hacksaws, drills, and knives.

**What is considered a power tool?** A power tool is a tool that is actuated by an additional power source and mechanism other than the solely manual labor used with hand tools. The most common types of power tools use electric motors. Internal combustion engines and compressed air are also commonly used.

**What is an example of a power hand tool?** Circular saws, jigsaws, drills, hammer-drills, sanders, grinders, routers and numerous other power tools, save time and effort on the job.

**What is manual vs power tools?** Efficiency: Power tools are designed to be faster and more efficient than manual tools. For example, an electric drill can bore holes more quickly and with less effort than a manual drill or screwdriver.
