Understanding Toyota Forklift Model Numbers: A Comprehensive Guide

Toyota forklifts are known for their reliability and performance, and their model numbers play a crucial role in identifying their specifications and key features. This article provides a detailed explanation of the various components of Toyota forklift model numbers, focusing on the following components:

Paragraph 1: Basics of Forklift Model Numbers

- Model numbers typically consist of a combination of letters and numbers, with each character representing specific information about the forklift.

- The first two letters (e.g., "6F") indicate the type of forklift, such as electric (6F) or cushion tire (42).
- The next digit (e.g., "U") represents the load capacity in tons (e.g., 2 for 2 tons).
- The subsequent two letters (e.g., "GU") indicate the mast type and height.

Paragraph 2: Mast Types and Heights (1/3)

- Common mast types include "GU" (standard triplex), "DU" (duplex mast), and "EU" (quad mast).
- The height of the mast is denoted by the next two digits (e.g., "15" represents a 15-foot mast height).

Paragraph 3: Mast Types and Heights (2/3)

- Variations in the mast type and height are reflected in the model numbers as follows:
 - "GDU" indicates a duplex mast with a lower height (e.g., "10" for a 10-foot duplex mast)
 - "EDU" indicates a quad mast with an even lower height (e.g., "05" for a 5-foot quad mast)
 - "FDU" and "FGU" are used for higher mast heights, respectively (e.g., "FDU18" for an 18-foot duplex mast)

Paragraph 4: Special Mast and Lift Capabilities

- Some model numbers include additional digits or letters to indicate special mast or lift capabilities.
- For example, "42 6FGU25 52" represents a 4-wheel electric forklift with a 2.5-ton load capacity, a triplex mast with a 25-foot height, and a 52-inch fork length.
- "62 6FDU20 42" indicates a 6-wheel electric forklift with a 2-ton load capacity, a duplex mast with a 20-foot height, and a 42-inch fork length.

Paragraph 5: Other Key Features

- The last digit in some model numbers (e.g., the "0" in "62") may indicate the year of production or a specific configuration.
- Additional letters or numbers may be added to the model number to denote special attachments or accessories (e.g., "L" for long forks, "F" for fork positioner).
