The golden age of Athenian culture is usually dated from 449 to 431 B.C., the years of relative peace between the Persian and Peloponnesian wars. After the second Persian invasion of Greece in 479, Athens and its allies throughout the Aegean formed the Delian League, a military alliance focused on the Persian threat.

Who saved Athens from the Persians? Themistocles (born c. 524 bce—died c. 460) was an Athenian politician and naval strategist who was the creator of Athenian sea power and the chief saviour of Greece from subjection to the Persian empire at the Battle of Salamis in 480 bce.
