What happens in Angel after the fall? Angel: After the Fall sees the heroic vampire, Angel, coping with the apocalyptic aftermath of the television series after he took over and subsequently betrayed the demonic law firm, Wolfram & Hart. The city of Los Angeles has since been sent to hell by Wolfram & Hart as a result of Angel's actions.

How many issues of angel after the fall? I found something called Angel: After the Fall: Premiere Edition (which combines 1-17), but it seems extremely expensive and I can't afford to pay tons for it....but still, the issues go up to number 44 and there are other series like "Spike: After the Fall" and "Angel: Only Human".

Does Angel become human in the comics? Angel starts the comics in Angel: After the Fall, published by IDW instead of Dark Horse. This picks up immediately after the Angel series finale cliffhanger. Los Angeles gets pulled into hell and Angel is made human, taking away his invulnerability.

Who does Angel get pregnant? Darla returns to reveal that she's pregnant with Angel's child.

Why did Angel end so abruptly? Angel's ratings in season 5 were actually up on season 4, making the lack of renewal even more of a shock, although the common reason given behind the move is that Whedon pressed John Levin, WB's Head of Entertainment, for an early decision on the show rather than the typical mid-May renewal.

Is Angel After the Fall canon? After the Fall is an Angel comic book series from IDW Publishing, originally published from November 2007 to February 2009. It is the canonical continuation of the fifth and final season of the Angel television series.

What happens to Wesley in the Angel comics? Angel: After the Fall (2007-2011), a canonical comic book continuation of the television series, reveals that Wesley was unable to move on after his death due to the standard perpetuity clause in his Wolfram & Hart contract.

Why does Angel lose his soul again? However, he was actually being haunted by the First Evil, who claimed to be the one that freed him from Acatla's hell. The First, able to adopt the appearances of Angel's past victims, lashed him with guilt and tempted him to end it all by losing his soul once again and killing Buffy.

Why did Angel turn evil? Angelus terrorizes Willow and the Gang at school, emotionally tormenting Buffy. Later, as they discuss Angel's transformation in the library, Buffy realises that having sex with Angel is what caused him to turn evil. Buffy has a dream in which Angel indicates that Jenny knows more than she is letting on.

Why did Buffy stab Angel? Angelus then attempts to destroy the world by awakening the demon Acatla. In the season finale, neophyte witch Willow (Alyson Hannigan) manages to restore Angel's soul at the last moment, but Buffy is forced to kill him to save the world from Acatla, and Angel is sent to hell.

Does Angel get resurrected? Angel (David Boreanaz) is resurrected mysteriously by the unseen Powers That Be. While Buffy is happy to have Angel back, he seems to have lost much of his sanity in Hell. Buffy helps Angel recover but, having seen Angel's demonic side, Buffy's friends distrust him until he saves them from a monster.

Does Connor forgive Angel? At the return of his memories, Connor finally reconciles with Angel in the series finale. The comic book series follows Connor accepting his abilities and role of a hero in addition to maintaining a normal life as a college student.

Who does Angel have a son with? Connor is the human-ish son of Angel and Darla, both vampires, one with a soul. His existence is cause for much excitement, mostly by nefarious cabals who generally want to kill the kid.

Who does Angel fall in love with? The story of Buffy and Angel is that they're two destined but tragic lovers. They will never stop caring for each other, but affection does not necessarily mean that they work well together. Angel isn't just Buffy's first love, he's treated as her soulmate.

Is there a spin off of Angel?

Why did Angel give up being human? Angel mentions that Buffy losing her focus to protect him as a human would cause her death, therefore he decides to give up his humanity.

Did Angel end on a cliffhanger? From the first episode, the first scene, and the ups and downs of five seasons, it all led up — built up, up, and up — to this emotional series finale, punctuated with the ultimate cliffhanger, perhaps more justifiably labelled an unknowable ending.
