#### **Q: What were the circumstances surrounding the theft?**

A: Pearse's manuscript was stolen from her agent's literary office in London. The theft was discovered when the agent went to retrieve the document from a desk drawer and found it missing. A thorough search of the office yielded no results, leaving the police baffled.

A: Pearse was understandably devastated by the loss of her manuscript. She publicly appealed for its return, offering a reward for any information leading to its recovery. The incident had a significant impact on her writing process and forced her to delay the publication of "Stolen."

**Q: Is there any hope of recovering the manuscript?**

A: While the chances of recovering the manuscript are slim, Pearse remains hopeful. She believes that the manuscript may eventually resurface and has declined to give up on finding it.
