

OBSESSIVE GENIUS THE INNER WORLD OF MARIE CURIE BARBARA GOLDSMITH

[Download Complete File](#)

What is the obsessive genius the inner world of Marie Curie about? “Obsessive Genius vividly portrays the powerful personal story of privation, sacrifice, triumph, and reward of one of the greatest scientists of the Twentieth Century, Marie Curie.

Why is Marie Curie considered a genius? Curie carried out groundbreaking research, providing the first detailed description of radioactivity and using its detection to discover two new elements: polonium and radium. She was awarded Nobel prizes in physics (1903) and in chemistry (1911).

What is Marie Curie passionate about? Marie Curie, now at the highest point of her fame and, from 1922, a member of the Academy of Medicine, devoted her researches to the study of the chemistry of radioactive substances and the medical applications of these substances.

What did Marie Curie like to study? In 1891, she went to Paris to continue her studies at the Sorbonne where she obtained Licenciateships in Physics and the Mathematical Sciences. She met Pierre Curie, Professor in the School of Physics in 1894 and in the following year they were married.

What did Marie Curie believe in God? Her father was an atheist and her mother was Catholic. The deaths of her mother and sister caused her to abandon Catholicism and become agnostic as a teen. (Marie Curie by Robert Reid, 1978.)

What did Einstein said about Marie Curie? “Few persons contributed more to the general welfare of mankind and to the advancement of science than the modest, self-effacing woman whom the world knew as Mme. Curie.”

What was Marie Curie's IQ level? Marie Curie is perhaps best known for her research on radioactivity, which led to the significant development of X-rays in surgery. With an IQ score ranging from 180 to 200, she was the first woman to win the Nobel Prize and the first person to win it twice in physics and chemistry.

Was Marie Curie Smarter Than Einstein? Marie Curie (1867–1934) is not only the most important woman scientist ever; she is arguably the most important scientist all told since Darwin. Einstein? In theoretical brilliance he outshone her — but her breakthroughs, by Einstein's own account, made his possible.

Why did Marie Curie pass away? On 4 July 1934, at the Sancellemoz Sanatorium in Passy, France at the age of 66, Marie Curie died. The cause of her death was given as aplastic pernicious anaemia, a condition she developed after years of exposure to radiation through her work. She left two daughters, Irene (born 1898) and Eve (born 1904).

Why was Marie Curie so special? Indefatigable despite a career of physically demanding and ultimately fatal work, she discovered polonium and radium, championed the use of radiation in medicine and fundamentally changed our understanding of radioactivity. Curie was born Marya Skłodowska in 1867 in Warsaw.

What was Marie Curie's famous quote?

What is the most interesting thing about Marie Curie?

Did Marie Curie have any pets? Physicist Albert Einstein (1879-1955) had cat, dog and parrot and Marie Curie (1867-1934) had a pet tiger.

What happened to Marie Curie's children? Eve Curie had no biological children. Irene had Hélène and Pierre. Hélène is a nuclear physicist who was born in 1927 and believe she is still with us. Pierre was born in 1932 and went into biology and to the best of my knowledge, he is also still alive.

Why did Marie faint during class? Stories from these years tell how she kept herself warm during the winter months by wearing every piece of clothing she owned, and how she fainted from hunger because she was too absorbed in study to eat.

Do geniuses believe in God? Researcher Helmuth Nyborg and Richard Lynn, emeritus professor of psychology at the University of Ulster, compared belief in God and IQs. Using data from a U.S. study of 6,825 adolescents, the authors found that the average IQ of atheists was 6 points higher than the average IQ of non-atheists.

Was Marie Curie a hero? In letters she wrote as a teenager she sometimes presented herself as a tragic heroine. Similarly, in her 1923 biography Pierre Curie and in the autobiographical notes appended to it, she depicted herself and her husband as participants in a heroic struggle.

Did Pierre Curie love his wife? The Curies had a happy, affectionate marriage, and they were known for their devotion to each other.

What was the IQ of Marie Curie? Marie Curie: IQ 180–200 Not only was Maria Salomea Skłodowska-Curie—later known as Marie Curie—the first woman to win the Nobel Prize, but she was also the first person to win it twice.

Was Einstein in love with Marie Curie? Answer and Explanation: Marie Curie and Albert Einstein were friends. They did not have a romantic relationship. They met at a conference in Belgium and discussed ideas they had in common.

What word did Marie Curie invent? On 26 December 1898, the Curies announced the existence of a second element, which they named "radium", from the Latin word for "ray". In the course of their research, they also coined the word "radioactivity".

Writing Skills: A Teacher's Guide

Question 1: What are the key elements of effective writing instruction?

- **Process-based approach:** Teaching writing as a series of steps, including prewriting, drafting, revising, and editing.

- **Genre instruction:** Focusing on specific writing genres (e.g., narrative, persuasive, informational) to develop genre-specific skills.
- **Student choice and voice:** Allowing students to choose topics and write in ways that reflect their individuality.
- **Peer feedback and collaboration:** Providing opportunities for students to give and receive feedback on each other's work.

Question 2: How can teachers assess writing skills?

- **Writing portfolios:** Collections of student writing that showcase growth and development over time.
- **Analytic rubrics:** Scoring guides that provide specific criteria for assessing writing quality.
- **Conferencing and feedback:** One-on-one meetings with students to discuss their writing and provide individualized support.
- **Student self-assessment:** Opportunities for students to reflect on their own writing and identify areas for improvement.

Question 3: What are common writing challenges faced by students?

- **Ideas and content:** Difficulty generating ideas, organizing information, and developing clear arguments.
- **Structure and organization:** Arranging ideas in a logical and coherent way, using appropriate transitions and paragraphs.
- **Language and grammar:** Using precise and varied vocabulary, correct grammar, and appropriate punctuation.
- **Mechanics:** Spelling, capitalization, and formatting.

Question 4: How can teachers address writing challenges?

- **Modeling:** Demonstrating effective writing strategies through writing samples, think-alouds, and guided writing.
- **Guided practice:** Providing scaffolded activities that support students as they gradually develop independence.

- **Differentiated instruction:** Tailoring instruction to meet the needs of individual students, providing additional support or enrichment as needed.
- **Technology integration:** Using word processors, online writing tools, and multimedia to enhance writing instruction.

Question 5: What resources are available to support teachers of writing?

- **Writing workshops and conferences:** Opportunities for professional development and collaboration.
- **Mentor programs:** Pairing experienced teachers with newer teachers to provide guidance and support.
- **Textbooks and online resources:** Comprehensive books and websites that provide lesson plans, activities, and assessment tools.
- **Collaboration with other teachers:** Sharing ideas, resources, and strategies with colleagues across disciplines.
