## [Download Complete File](#)

**Which comes first Fantastic Beasts or Crimes of Grindelwald?** The series is distributed by Warner Bros. and consists of three fantasy films as of 2024, beginning with Fantastic Beasts and Where to Find Them (2016), and following with Fantastic Beasts: The Crimes of Grindelwald (2018) and Fantastic Beasts: The Secrets of Dumbledore (2022).

**Should I watch Fantastic Beasts before crimes of Grindelwald?** For those wanting a complete viewing of the franchise in terms of release dates, the Fantastic Beasts movies order is as follows: Fantastic Beasts and Where to Find Them (2016) Fantastic Beasts: The Crimes of Grindelwald (2018) Fantastic Beasts: The Secrets of Dumbledore (2022)

**In what order should I watch Harry Potter and Fantastic Beasts?**

**Is the Fantastic Beasts franchise canceled?** On the podcast, Yates sang the praised the most recent offering in the three-film franchise—2022's Fantastic Beasts: The Secrets of Dumbledore—but confirmed that there are no current plans to move forward with the series.

**Can I watch Fantastic Beasts 3 without watching 1 and 2?** Fantastic Beasts: The Secrets of Dumbledore is the third in a five-part series. It's now past the halfway point. You need to watch the first half to fully understand and appreciate this film, and to understand and appreciate the contents of the earlier instalments.

**Who is Grindelwald to Voldemort?** Gellert Grindelwald (1882/1883 – March 1998) was a Dark wizard who was considered to be amongst the most powerful and

notorious wizards of all time, his only superiors being Albus Dumbledore and Lord Voldemort.

### **What do I need to know before watching Crimes of Grindelwald?**

**Is Fantastic Beasts The Crimes of Grindelwald worth watching?** Fantastic Beasts: Crimes of Grindelwald is a decent addition to J.K. Rowling's universe. I think I still like the first one more. It's obviously a bit of a filler film, which some people may not like, but I don't have a problem with.

**How are Fantastic Beasts connected to Harry Potter?** Fantastic Beasts and Where to Find Them is based on a book by the same name that was written by J.K. Rowling in 2001. The book itself is supposed to be the textbook that Harry had to purchase in the first novel, Harry Potter and the Philosopher's Stone, and was written by the "magizoologist" Newt Scamander.

### **What to know before watching Fantastic Beasts 1?**

**How old was Dumbledore when he died?** Rowling said in a 2000 interview that Dumbledore is about 150 years old during the events of the novels. However, she has stated on her website that he was born in 1881, which makes him either 115 or 116 at the time of his death. In 2007, Rowling was asked whether Dumbledore finds "true love".

**Is Fantastic Beasts a prequel to Harry Potter?** Headlined by Eddie Redmayne, Fantastic Beasts film is a prequel to Harry Potter. It was JK Rowling who had envisioned the film as a five-film series. So far, we have three films already—Fantastic Beasts and Where to Find Them (2016), The Crimes of Grindelwald (2018) and The Secrets of Dumbledore (2022).

**Why did Fantastic Beasts flop?** The reason? Well, there are a couple, including but not limited to poor planning, lackluster reviews, low box office returns, and controversial figures both in front of and behind the camera. All of these ingredients combined in a cauldron to create a franchise that is now even more dead than Harry Potter's parents.

**Did JK Rowling write Fantastic Beasts?** What did J.K. Rowling write? In addition to the Harry Potter books, J.K. Rowling wrote such companion volumes as Fantastic

FANTASTIC BEASTS AND THE CRIMES OF GRINDELWALD FIRST

Beasts & Where to Find Them (2001) and cowrote a story on which the play Harry Potter and the Cursed Child (2016) was based.

**Is Fantastic Beasts worth watching if you like Harry Potter?** What I can say though is that Fantastic Beasts and Where to Find Them is a thoroughly entertaining affair that is well worth a watch, especially if you're a fan of J.K. Rowling's magical world. For starters the cast was great. Eddie Redmayne feels perfectly cast in main role as Newt Scamander.

**Does it matter what order you watch Fantastic Beasts?** Set all the way back in 1926, Fantastic Beasts and Where to Find Them was the first Harry Potter spin-off prequel to hit theaters. Considering it takes place around 70 years before Harry starts school at Hogwarts, it is the first film you'll want to watch if you're going by chronological order.

**Is Secrets of Dumbledore related to Harry Potter?** Like the two previous films in the series, Fantastic Beasts: The Secrets of Dumbledore serves partly as a prequel to the main Harry Potter saga, as we follow Dumbledore and his allies in their quest to defeat dark wizard Gellert Grindelwald.

**Was Fantastic Beasts any good?** However, the film contained stunning visuals and great character performances; but lacked the tension and pizzaz required for a final battle. Worth a watch but falls short with the fantastic beasts being cast aside for a plot that does not entirely deliver.

**Who married Newt Scamander?** Newt would go on to marry Porentina Goldstein, an American witch, and together they had at least one child, presumably a son.

**Did Grindelwald love Albus?** Dumbledore and Grindelwald only spent about two months together, but the two canonically became lovers in that time. Their relationship was passionate and intense, and each wizard helped shape the philosophies of the other.

**Who is Scamander in Harry Potter?** Newt Scamander was a Magizoologist who travelled the world in the early 20th century researching magical creatures. On his travels, he carried a magically enhanced suitcase, capable of housing his fantastic beasts.

**Does crimes of Grindelwald take place before Fantastic Beasts?** Set 5 years after the events of The Crimes of Grindelwald, the third film in the Fantastic Beasts series largely focuses on Grindelwald himself once again -- who is actually played by Mads Mikkelsen this time. There are a few time jumps due to a creature named Qilin, but most of the movie is set in the 1930s.

**What are the 8 parts of Harry Potter in order?** The collection includes Harry Potter and the Sorcerer's Stone™, Harry Potter and the Chamber of Secrets™, Harry Potter and the Prisoner of Azkaban™, Harry Potter and the Goblet of Fire™, Harry Potter and the Order of Phoenix™, Harry Potter and the Half-Blood Prince™, Harry Potter and the Deathly Hallows™ - Part 1, and ...

**Is Newt Scamander autistic?** Is there any official confirmation that Newt Scamander has autism? No, there is no official confirmation from the creators of the "Fantastic Beasts" series that Newt Scamander has autism. However, many fans have speculated based on his behavior and traits portrayed in the films.

**What happens in Order of the Phoenix?** The Dark Lord is looking for a prophecy in a glass sphere that only Harry can retrieve. Dumbledore's Army fights the Death Eaters until the Order of the Phoenix arrives. Sirius dies at the hands of his cousin, Bellatrix; the Death Eaters are captured; and Voldemort disappears after dueling with Dumbledore.
