**Which country is better, Latvia, Lithuania or Estonia?** Tallinn is a gorgeous city and walking through Old Town is like stepping back in time. Riga in Latvia is also a lovely old city and I've always had a great time there. Lithuania is a bit different because it is so flat but the food is incredible and the people are so friendly and hospitable.

**What are Lithuania, Latvia, and Estonia?** The three countries Estonia, Latvia and Lithuania are often referred to collectively using the political term "Baltic states". Together, these states have a population of around seven million and boast a long tradition of positive relations with Germany.

**What is the cheapest Baltic country to visit?** Lithuania Lithuania is the most affordable of the three Baltic States, with Estonia being the priciest and Latvia in the middle.

**Should I go to Riga or Tallinn?** Riga is by far the largest of the three cities – it is a slightly imposing, cosmopolitan city that has much more to offer than its touristy old town. Tallinn is much smaller and compact (especially the old town). Tallinn is by far the most "charming" of the three but perhaps also the most touristy.

**Which is the best Baltic city to visit?**

**Who is richer, Estonia or Lithuania?** In pure GDP per capita, not considering local price levels, Estonia is at 21,000 and Lithuania at 18,000. So yes, there is more

money in the Estonian economy per person than in Lithuania.

**Which is nicer, Riga or Vilnius?** Vilnius is generally considered the cheapest of the three, whilst Tallinn is the best for foodies and for summer sun seekers. Riga has arguably the best Old Town and there is wonderful architecture and fascinating museums to visit in all three cities.

**Which Baltic country is the best to live in?** Riga is one of our favorite places to live in the Baltic States, compared to the somewhat less scenic Lithuania and the pricier Estonia to the north. When it comes to the quality and prices of food, Latvia does quite well.

**Is Estonia richer than Latvia?** An average income in Estonia is about 20% higher than in Latvia but not 2 or 3 times higher:-) So we cannot use word “much” richer.

**Which is the richest Baltic country?** Estonia is the richest (GDP) country of the 3 Baltic states (Lithuania, Latvia and Estonia).

**What is the most advanced Baltic country?** Is Estonia the most developed country in the Baltic region and what is the order of Baltic countries in terms of quality of living? Estonia always was ahead of entire ex Soviet Union in terms of quality of living. This perception was also accompanied with extremely calm, quiet and peaceful population - Estonian nation.
