**How to answer an AO2 question in business?** AO2 Requirements: If questions use these command terms, you are required to show that you can break down ideas into simpler parts, such as advantages and disadvantages, and to apply your knowledge to stimulus materials you are given e.g. case study materials.

**What is the acronym deader in business?** 10 mark questions (AO3) - use DEADER (Define, Examples [from stimulus], Advantages, Disadvantages, Evaluation and Recommendations). Sometimes students take the advice to write about advantages and disadvantages too literally.

**How to answer ib business questions?** “Demonstrate” Business questions require the IB candidate to provide evidence, give examples and if possible, apply information from the stimulus. In “Distinguish” questions, the candidate must show the differences between concepts, theories or other content.

**What is AO1, AO2, AO3, and AO4 in business?** In Business there are four AOs: • AO1 – Knowledge and Understanding. • AO2 – Application. • AO3 – Analysis. • AO4 – Evaluation.

**What is AO2 in business ib?** The command terms used with AO2 questions include: explain, analyse and suggest. An AO2 question might ask a student to explain why an organisation's labour turnover might increase. AO3 questions require students to demonstrate synthesis and evaluation in their answers.

**What does Oof stand for business?** As a side note, you might sometimes see the abbreviation OOF used in place of OOO. It's not as common, but it means the same

thing. It stands for “out of facility” and was originally a term used internally by Microsoft employees.

**What is dik in business?** DIK Drug Company is a wholesale distributor and provides other services to the healthcare industry. The Company services include retail advertising, retail services, value added services, and fulfillment services.

**What does DBD stand for in business?** In sales, the acronym DBD usually stands for Director of Business Development. DBDs are responsible for outbound sales teams, meaning they lead sales outreach efforts to find and qualify new leads.

**Is it easy to get 7 in IB business?** Hard work and focus are necessary to achieve a 7 in IB Business Management. Practicing past papers and understanding the exam structure and command terms are important for success. Keeping up to date with industry news and reading about an industry of interest can provide valuable exam materials.

**Is IB business difficult?** Conclusion: Since the IB curriculum is extensive and rigorous, achieving a 7 in IB Business is undoubtedly challenging. Also, the multifaceted nature of the course and the high standards set by the IB program make it overwhelming.

**How can I pass IB?**

**How to answer a 2 mark business question?** (a) 2 mark Short Answer Questions  
We need two knowledge points to secure both marks. An example of this is pattern of sales and steps from launch to withdrawal but you could use any of these knowledge points. The key is to have two clear different points to avoid repetition.

**What is a02 in business a level?** AO2: Apply knowledge and understanding to various business contexts to show how individuals and organisations are affected by and respond to issues. AO3: Analyse issues within business, showing an understanding of the impact on individuals and organisations of external and internal influences.

**How do you answer a compare question in business?** If a question asks you to 'compare', all you need to do is point out similarities and differences, which means you don't need to go into the detail of an 'explain' question.

**How do you answer an evaluate question in business?** Evaluate questions (12 marks) require demonstration of knowledge of the concept given in the case study. Answer points should be applied to the given business, developing them to discuss the impact/consequence, before making a conclusion. Using the 'it depends on' factor will finish off the conclusion.
