How do you reset the service light on a BMW motorcycle?

How good is BMW motorcycle? Yes, BMW motorcycles are of good quality. They are built to exacting standards with premium materials and innovative technology. Whether you're cruising on a R1250RT or tearing up the track on an S1000RR, you can expect a level of sophistication and performance that is hard to match.

Where are BMW motorcycle engines made? Current production Some engines are manufactured in Austria, China, and Taiwan. Most of the current motorcycles in BMW Motorrad's range were designed by David Robb, who was the company's chief designer from 1993 to 2012 when he was replaced by Edgar Heinrich.

Is the K1200 a good bike? Overall rating. The BMW K1200RS is almost an ultra-sports tourer but lacking a few bhp and a carrying too much weight. The K1200RS carved its own niche as a superb high-speed distance bike that could carry a pillion and luggage too without breaking a sweat.

What is the top speed of the K1200RS? All the power produced by the engine was transferred to a six-speed manual transmission with a hydraulically operated dry clutch that spun the rear wheel through a final shaft drive to a top speed of 246 kph (153 mph).

Why is my BMW saying service? The BMW service light tells you when it's time for regular maintenance. Your vehicle's computer determines the time for service based on the number of miles and amount of time since the last scheduled service was

performed.

How do I clear my BMW service code? Your owner's manual will have specifics for your BMW model. Press and hold the small odometer button near the bottom left corner of the instrument panel until the service message appears. Release the button, and press and hold it again until the message says "Reset?". Release the button again, and press and hold it.

Why is my BMW service engine light on? It may be small things like a simple sensor failure, an alert to schedule preventive maintenance (such as an oil change), or even to be on the lookout for potentially significant problems that may contribute to engine failure.

What is the failure rate of BMW motorcycles? In fact, BMW and Canada-based Can-Am are both estimated to have failure rates of around 40 percent by the fourth year of ownership.

How long will a BMW motorcycle last? A well-kept BMW motorcycle can last approximately 50 or so years if you average around 4000 miles per year. Through many years of experience and research of BMW motorcycles, an approximate mileage that we deem reasonable is around the region of 100K - 200K. Many miles can now be achieved using BMW motorcycles.
