What does Edward Said say about culture? Said argues that cultural productions such as literature, music, and art are shaped by the political and economic context in which they are produced.

How does Edward Said distinguish between pure and political knowledge? Here Said made a distinction between pure knowledge and political knowledge. An example of 'pure knowledge' is basic math. It was and is hardly possible for $2+2=4$ to enable the domination of another group. Political knowledge, on the other hand, lent itself handily from specialist to policy.

What was Edward Said known for? Besides having been a public intellectual, Edward Said was an accomplished pianist, worked as the music critic for The Nation magazine, and wrote four books about music: Musical Elaborations (1991); Parallels and Paradoxes: Explorations in Music and Society (2002), with Daniel Barenboim as co-author; On Late Style: ...

What languages did Edward Said speak? I have Arabic, English, French, and I can speak and certainly read Italian, German and Spanish. I have never Page 2 2 Postcolonial Text Vol 3 No 3 (2007) really known which is my first language, whether it is Arabic or English.

What is the summary of culture and imperialism by Edward W Said? Broadly speaking, the book addresses the connections between Western imperialist practice

and cultural production, as well as the characteristics of various resistance cultures within the so-called peripheries.

What is culture according to Edward? Sir Edward B. Tylor's definition of culture (1871) "Culture... is that complex whole which includes knowledge, beliefs, arts, morals, law, customs, and any other capabilities and habits acquired by [a human] as a member of society."

What is the key concept of Edward Said? The key concept of Edward Said's postcolonial theory is the false image of the Orient created by Western thinkers as the primitive "other" in contrast with the civilized West.

What was the philosophy of Edward Said? It is shown that Said rejected naïve or direct realism in favor of representationalism. It is also argued that, despite being seen as a post-modern thinker, Said subscribed to a version of the correspondence theory of truth.

What are the features of Orientalism by Edward Said? He argued that "Orientalism is not a mere political subject or field that is reflected passively by culture, scholarship, or institutions," but rather "a distribution of geopolitical awareness into aesthetic, scholarly, economic, sociological, historical, and philological texts." European literature for Said carried, ...

What impact did Edward Said have? Said is often credited with founding the field known as postcolonial studies, and his work has significantly influenced fields across the humanities: including cultural studies, anthropology, comparative literature and political science.

What is Edward Said's main idea in Orientalism? Edward Said's Orientalism (1995), which projects the view that Western scholarship on Asia projected the notion of an inferior 'other' of Europe and thus reflected the new relationships of power generated by imperialism, has had a seminal influence on the historical work on South Asia (since 1980) even though Said's ...

What was Edward Said's best quote? We can not fight for our rights and our history as well as future until we are armed with weapons of criticism and dedicated consciousness.

What is post-colonialism according to Edward Said? Said's theory of postcolonialism is mainly based on what he considers the false image of the Orient or the East that has been fabricated by western explorers, poets, novelists, philosophers, political theorists, economists, and imperial administrators since Napoleon's occupation of Egypt in 1798.

Why was Edward Said expelled? After Said was expelled for bad behaviour, in order to keep his American citizenship, and put some distance between him and his doting mother, Said's father sent his son to boarding school in Massachusetts.

What are the criticism of Orientalism? Some of the general criticisms of Said's Orientalism are: It is very monolithic in its conceptions of the Orient and the Occident. He ignores the internal fissures of Orientalism. Said ignores the fact that every Orientalist did not condemn the East. There were also eulogies.
