One cold night, after much talking and drinking, Ennis decides to remain in base camp rather than trek back to the herd. It's freezing and Jack tells him to join him in his sleeping roll inside the warm tent.

What literary devices are used in Brokeback Mountain? Annie Proulx's Brokeback Mountain is chock full of natural simile and metaphor, but perhaps the most consistent natural metaphor is fire, as it represents Jack and Ennis' romance. huge black mass of mountain” (Proulx 9).

After Ennis and Jack went their separate ways, Ennis stopped on the roadside and tried to throw up because he felt "like someone was pulling his guts out hand over hand a yard at a time." To my mind, Brokeback Mountain (2005, Ang Lee) is a landmark film, a film that utterly deconstructs the "cowboy" (hypermasculine, patriarchal, phallogocentric) ideology, while also revealing how horribly destructive such normalizing ideologies as hypermasculinity, patriarchy, heteronormativity, and Christianity/ ...

Is Brokeback Mountain inappropriate? Parents need to know that Brokeback Mountain is an Oscar-winning Western romance directed by Ang Lee based on Annie Proulx's short story. What is the most famous line from Brokeback Mountain? However, that line – "I wish I knew how to quit you" – is perhaps one of Brokeback Mountain's most subtly famous moments. It has been reworked and remixed and requoted in pop culture ever since, living on in a way even Annie Proulx's 1997 short story of the same name

never has.

Why did Ennis punch Jack? The first instance is at the end of their summer at Brokeback Mountain, when Ennis punches Jack hard for no apparent reason, although it seems that this unexpected violence is due to his own shame and distress over having to leave the man he loves.

What did Jack's postcard to Ennis say? Early in the film (1963, Wyoming) a train is seen crossing the screen without a caboose. Caboosees were required by law on all trains into the 1980s. Ennis gets a postcard from Jack which reads, "Ennis, see you in a couple weeks, fish should be jumping. Jack." The postmark is Childress, Texas, July 1972.

What did Ennis see when he was 9? When he was 9 years old, his father took Ennis and his brother, K.E., to see a corpse in a ditch—the body of old Earl who ran a ranch with Rich, his companion. Old Earl had been beaten to death with a tire iron, his genitals mutilated—the sin of homosexuality was strongly implied.

What does Ennis find in Jack's Closet? And then he sees it, hidden between the closet and the wall, his bloodied shirt from their first summer on Brokeback, the shirt he thought he had lost, hanging under Jack's own bloodied shirt. Inside Jack's closet, Ennis holds the shirts to him, breathes them in, considering what he's lost.

Is Brokeback Mountain a true story? The tragic story of "Brokeback Mountain" is not based on true events, but is actually adapted from a novel of the same name. The short story written by Annie Proulx was first published in the New Yorker in 1997.

Why did Jack go to Mexico in Brokeback Mountain? Jack admits he travels to Mexico for sex because Ennis can't give him enough of a life. They argue, but nothing is resolved. Jack remembers a time on Brokeback when Ennis simply embraced him and stood with him by the fire.

Did Ennis get Jack's ashes? As Lureen informs Ennis, "He use to say he wanted to be cremated, ashes scattered on Brokeback Mountain" (128). Of course Ennis wants to honor that request and heads to Jack's parents for the other ashes. But he just can't get it done: "In the end the stud duck refused to let Jack's ashes go."

Why is it called Brokeback Mountain? That's where it takes place. It's based on a book which is set near the fictional Brokeback Mountain, Wyoming.

The Passion of Command: The Moral Imperative of Leadership

Leadership is an arduous and demanding profession that requires both a deep passion and a strong moral compass. It is not a position that can be held lightly or taken for granted. Rather, it is a calling that requires individuals to lead with purpose, integrity, and a commitment to the well-being of those they serve.

Question: Why is passion essential for leaders? **Answer:** Passion fuels a leader's drive, determination, and resilience. It inspires them to overcome challenges, pursue excellence, and make sacrifices for the greater good. Without passion, leaders lack the motivation and energy necessary to inspire others and achieve their goals.

Question: What is the moral imperative of leadership? **Answer:** The moral imperative of leadership is to act with integrity, fairness, and compassion. Leaders have a responsibility to uphold ethical standards, treat others with respect, and make decisions that prioritize the well-being of their followers. Failing to do so undermines trust, erodes morale, and tarnishes the reputation of both the leader and the organization.

Question: How can leaders cultivate their passion and moral compass? **Answer:** Cultivating passion and moral awareness requires self-reflection, continuous learning, and a commitment to personal growth. Leaders can identify their core values, seek mentorship, and engage in activities that inspire and motivate them. By embracing a lifelong pursuit of knowledge and ethical development, leaders can strengthen their resolve and become more effective and authentic leaders.

Question: What role does emotional intelligence play in effective leadership? **Answer:** Emotional intelligence is crucial for leaders to manage their own emotions, understand and respond to the emotions of others, and build strong relationships. Leaders with high emotional intelligence can create a positive and inclusive work environment, foster trust, and resolve conflicts effectively. They are also better equipped to handle stress, make difficult decisions, and inspire their followers.

Question: How can leaders ensure they are leading with passion and integrity?

Answer: Leaders can ensure they are leading with passion and integrity by regularly assessing their motivations, values, and actions. They can seek feedback from trusted colleagues, mentors, and followers to gain insights into their strengths and areas for improvement. By holding themselves accountable and striving for continuous improvement, leaders can maintain a strong moral compass and inspire their followers to do the same.
