**Why is bioethics becoming more important as biotechnology changes?** As Biotechnology keeps expanding and becomes entangled in everyday life, so does the need for ethical competent biotechnologists, with competencies built not only on ethical principles but also on a realistic grasp of the impact these technologies could have on human society and the world we inhabit.

**How does bioethics touch our lives at their deepest points?** It can touch our lives at their deepest points, when life and death issues must be confronted. It can no less touch us in our daily lives, working to keep us healthy in ethical ways, yet also knowing when the quest for health becomes disproportionate in comparison with other pressing national needs.

**Why is the definition of person important in bioethics?** The concept of person has various implications for bioethical issues. Moral considerations of many bioethical issues depend on how 'person' is defined. The concept of person is a crucial concern for the debate on abortion, euthanasia, brain death, responsibility to anencephalic children, and the moral rights to animal.
