**What did Alan Turing believe in?** Some have speculated that Morcom's death was the cause of Turing's atheism and materialism. Apparently, at this point in his life he still believed in such concepts as a spirit, independent of the body and surviving

death.

**What does Phaedo say about death?** (3) Life, then, comes from death (or the living from the dead). (4) So there must be an afterlife. (1) If one does not come back from the dead, then death would be an irreversible process. (3) So if one does not come back from the dead, then there'd come some time at which everyone is dead.

**What are the four types of madness in the Phaedrus?** And we made four divisions of the divine madness, ascribing them to four gods, saying that prophecy was inspired by Apollo, the mystic madness by Dionysus, the poetic by the Muses, and the madness of love, inspired by Aphrodite and Eros, we said was the best.

**How does Socrates define death in the following way in Plato's Phaedo?** At Phaedo 64c, Plato offers a description of physical death. A person dies physically when their body falls away from their soul. Plato goes on to offer a description of psychological death at 67c-d. A person dies psychologically when their soul has unencumbered itself from the body as much as is possible.

**Why is Socrates not afraid of death in the Phaedo?** Socrates answers that his light-heartedness in the face of death comes from the certainty that he will find even better gods and friends in the afterlife.

**What are the 4 arguments of Phaedo?** Phaedo gives us four different arguments for the immortality of the soul: The Argument from Opposites, the Theory of Recollection, the Argument from Affinity, and the final argument, given as a response to Cebes' objection.

**What does Plato suggest about our mortality in the Phaedo?** Plato's concept of the immortality of the soul is a fundamental aspect of his philosophical worldview. In Plato's dialogues, particularly in "Phaedo" and "Republic," he discusses the nature of the soul, arguing that the soul is eternal and survives the death of the body.

**What is the divine madness in the Phaedrus?** ABSTRACT: In the Phaedrus, Plato speaks of various forms of madness having a divine origin, and bestowing virtue on mankind. A similar, though not equivalent, elevation of madness over sanity is found in the Pauline epistles, where Christians are described as fools.

**What are the main points of the Phaedrus?** The subjects of the Phaedrus (exclusive of the short introductory passage about mythology which is suggested by the local tradition) are first the false or conventional art of rhetoric; secondly, love or the inspiration of beauty and knowledge, which is described as madness; thirdly, dialectic or the art of composition ...

**What is madness in Greek philosophy?** Madness in the Greek world is generally regarded with fear and suspicion, though there is one type of madness that the Greeks would consider “good” or “useful”: prophetic madness. The duality of madness in Greek society seems clear-cut and simple upon first inspection.

**What is the moral lesson of Socrates death?** In the end, all Socrates had was his morality, and this is something he never gave up. This morality was what he died for. There's a lesson in Socrates's suffering, and you don't have to die to learn it. Socrates died so that you could think.

**What was Plato's theory on death?** For example, Plato explains that the soul is immortal and will remain (in a spiritual sense) after the physical destruction of the body. He explains that the fear of death is only natural to humans, but death should be viewed as the achievement of life.

**What does the death of Socrates symbolize?** They were fighting against the wealth and excesses of royalty, and they were standing up for themselves. And so this story of Socrates and his death was a symbol of everything that they believed in. They were against over-the-top emotion and frivolity and for things like logic and reason and honor and patriotism.

**What two things does Socrates say death is one of two things?** The dilemma form of Socrates' argument is easy to understand in outline. Death is “one of two things,” either “nothingness” or a “change and migration of the soul from here to another place” (40c5–9).

**How does Socrates view death in the apology?** In Plato's Apology (29a-b), Socrates argues that he does not fear death; indeed, to fear death is a sign of ignorance. It is to claim to know what one in fact does not know (Ap. 29 a-b). Perhaps, Socrates suggests, death is not a great evil after all, but 'the greatest of all

goods.

**What does Socrates believe is worse than death?** Dishonor is worse than death. While any body inevitably dies, one's honor -- that is the result and memory of one's virtue -- lives on after one's death; thus, protecting one's virtue is vastly more important than protecting one's life.

**What did Descartes believe about death?** According to Cartesian substance dualist interpretation of afterlife beliefs, the physical body is abandoned at death, yet the immaterial mind/soul is claimed to maintain the existence of the individual.

**What does Socrates argue about death?** The dilemma form of Socrates' argument is easy to understand in outline. Death is "one of two things," either "nothingness" or a "change and migration of the soul from here to another place" (40c5–9). In the one case, if death is nothingness, then it is utterly without perception, which is like a dreamless sleep.

**What is the argument in the Phaedo if death and life work as all other opposites do then?** If death is the opposite of life, then death and life must be in a constant cycle, one coming into being out of the other. At the end of our lives we become dead, but analogously this means that at the beginning of our lives we come into being from out of an underworld of dead souls.

**What is death according to Camus?** He believes that facing up to the inevitability of our own death can help us appreciate life's value. In other words, we can learn to appreciate life all the more by understanding that death is inevitable. Camus understands that a life without meaning is not worth living and tackles the problem head-on.
