**What percent of students fail organic chemistry?** How To Manage Your Class If You Are Retaking Organic Chemistry. Organic chemistry has a reputation as being the most challenging science course. On average, 40% of students don't pass on the first attempt. For most of those students, their final grade has very little to do with their ability to learn the material.

**Is 1 month enough for organic chemistry?** 1 month is more than enough to complete whole of organic part starting from GOC to Polymers and Biomolecules.

**Why is organic chemistry 1 so hard?** You essentially need to know the mechanism of how the reaction works and be able to predict the product and reactant. Seems simple enough, right? The problem is there are hundreds of

reactions you have to learn. You have to know them forwards, backwards, and inside out.

**Which is the toughest subject in mains?** The toughest subject in JEE is maths and at the same time it is complex also. Questions in maths section requires more practice than the other two. This is because the syllabus of mathematics part of JEE and class 11+12 is not same as that of physics and chemistry.

**Is OP Tandon good for inorganic chemistry in JEE Advanced?** My suggestion would be to use, OP Tandon's book for inorganic, or GRB's or Modern ABC CBSE

books are also really good for inorganic. People have a bad tendency that they judge a book as not good for JEE if it is meant for CBSE.

**Is GRB chemistry good for JEE?** Are GRB books suitable for all levels of expertise? Yes, GRB offers a range of materials catering to different levels – from foundational to advanced, ensuring there's something for everyone.
