Who is eligible for PhD in gynecology? Eligibility for PhD in gynecology generally requires a postgraduate degree (MD/MS) in ObGyn.

At what age can a woman stop seeing a gynecologist? Women over age 65 can stop getting screened if they've had at least three consecutive negative Pap tests or at least two negative HPV tests within the previous 10 years, according to the guidelines. But women who have a history of a more advanced precancer diagnosis should continue to be screened for at least 20 years.

Can a gynecologist tell the last time? Most of the time, a doctor can't tell if a girl has had sex just from a pelvic exam (and doctors don't usually do a pelvic exam unless there's a sign of a problem). But you should let your doctor know if you've had sex anyway. Why? Having sex puts a person at risk for STDs as well as unplanned pregnancy.

Is it better to see a male or female OB-GYN? While there might be some variation between individual studies, overall, there's consensus that gynecologists of both genders deliver equal quality of care and that other physician qualities (such as patient engagement) are more likely to influence patient experiences.

Can you refuse a gynecologist? The American College of Obstetrics and Gynecology recommends them based on symptoms or medical history. You have the right to decline a pelvic exam. Discuss benefits and risks with your provider and make decisions collaboratively.
