**What is the main point of The Scarlet Ibis?** The main idea of the Scarlet Ibis is that pride can be both good and bad. Pride is shown to be a good thing when it causes Brother to teach Doodle to walk. In contrast, pride's negative consequences are shown when it causes Doodle's declining health and eventual death.

**What disease did Doodle have in The Scarlet Ibis?** Doodle is a differently-abled child who suffers from a weak heart condition and a fragile body. He was born with the caul around his head. **Why does Brother leave Doodle in the rain?** The narrator, known as Brother in the short story, leaves Doodle behind in the storm because of his selfishness. From the start, the narrator wants Doodle to be a brother he can be proud of. Doodle has several physical ailments that prevent him from growing and developing in typical ways.

So, he takes out a string from his pocket, and puts a loop around the neck of the dead bird. He carries the bird to the front yard, and lays the bird to rest in the petunia bed.

**Why does the brother rename Doodle?** When he crawled on the rug, he crawled backward, as if he were in reverse and couldn't change gears. This made him look like a doodlebug, so I began calling him 'Doodle. ' Renaming my brother was probably the kindest thing I ever did for him, because nobody expects much from someone called Doodle.

**Why did brother show Doodle the coffin?** The narrator shows Doodle the coffin in part to be mean, but also to have Doodle realize that his health has been precarious from the beginning.
