

Atp 4 93 1 combat sustainment support battalion june 2017

[Download Complete File](#)

What does a combat sustainment support battalion do? The CSSB establishes a command post, executes the operations process, and synchronizes logistics operations in support of mission requirements.

What is the task organization of the sustainment brigade? The sustainment brigade is a flexible headquarters that is task organized to support unified land operations and command subordinate sustainment organizations.

What does ATP stand for in the Army? Army Techniques Publications (ATP), Army Training Circulars (TC), and Army Technical Manuals (TM) round out the new suite of doctrinal publications.

What is the Army SPO section? “ASC SPO integrates and synchronizes strategic and operational level sustainment functions from the strategic support area to the tactical point of need through our Army field support brigades and Army field support battalions, both CONUS and OCONUS.” It doesn't matter where the foxhole or office is — ASC is there.

What is the role of combat support? Combat support officers play an important role in planning reconnaissance, surveillance, and the surveying and assessment of potential airfields and assault zones.

What are the 5 combat support units?

What are the 4 sustainment warfighting functions? There are four elements that make up the Army Sustainment Warfighting Function (logistics, financial

management, personnel services, and health service support).

What is the role of sustainment? Sustainment is one of six warfighting functions common to joint operations and includes the provision of logistics and personnel services to maintain and prolong operations through mission accomplishment and redeployment of the force.

Do sustainment brigades get deployed? The brigade's Soldiers regularly deploy to support commands all over the world, assisting allies in a wide range of environments are an essential part of their mission.

What is ATP used for? ATP is consumed for energy in processes including ion transport, muscle contraction, nerve impulse propagation, substrate phosphorylation, and chemical synthesis. These processes, as well as others, create a high demand for ATP.

How many hours is military ATP? \$6,995.00 (4 – 5 days) Minimum previous experience requirements are 1,500 hours total flight time (Restricted ATP minimums are 750 hours total time), 500 hours cross country (Restricted ATP cross country minimums are 200 hours), 75 hours instrument and 100 hours night.

Who does ATP mean? What Does 'ATP' Mean in Slang? ATP most frequently means "at this point."

What is the difference between Army SPO and S4? A strong S-4 assists the support operations (SPO) section in providing critical support externally by ensuring the SPO does not have to focus on internal logistics. A team-oriented S-4 handles all aspects of internal logistics during field training exercises and training center rotations.

What is the rank of an army spo? Why? Mainly because there are two operations officers: the S-3 and the support operations officer (SPO). The fiscal year 2013 BSB modified table of organization and equipment (MTOE) changes the authorization for the battalion S-3 from a major to a captain, but the support operations officer remains a major.

What does SPO mean in military? Second, support battalions have two separate operations cells, the orders producing S-3 section mentioned above and the non-

orders producing support operations section lead by a major as the support operations officer (SPO) and another master sergeant as the NCOIC.

Do combat support see combat? Combat support officers work in a variety of settings. Some work in offices or command and control centers. Others work primarily outdoors in the field during training exercises and actual combat situations.

What does a support battalion do? Support Battalion provides a diverse set of capabilities to MCRD, PI, Recruit Training Regiment. Special Training Company has the responsibility of rehabilitating injured recruits, providing physical conditioning to recruits not meeting the minimum standard, and holds recruits pending medical treatment.

What is a combat service support battalion? A CSSB can be attached to a sustainment brigade to support the brigade combat teams and support brigades assigned to a corps with maintenance, transportation, supply, field services, and distribution functions. The CSSB is task-organized with the subordinate units necessary to carry out its mission.

What is a combat support role? Combat Service Support (CSS), known in the Marine Corps as the Logistics Combat Element (LCE), is responsible for providing direct logistical support to GCE units and general logistical support throughout the MAGTF.

How big is a battalion? Battalions consist of four to six companies and can include up to about 1,000 soldiers. They can conduct independent operations of limited scope and duration and are usually commanded by a lieutenant colonel.

Which is battalion support weapon? The Support Company contains the heavy weapons the Battalion Commander needs to support the Rifle Companies and complete the Battalion mission. The Support Company consists of a Heavy Machine Gun (HMG) Platoon, an 81mm Mortar Platoon and an Anti-Armour Platoon.

What does a support battalion do? Support Battalion provides a diverse set of capabilities to MCRD, PI, Recruit Training Regiment. Special Training Company has the responsibility of rehabilitating injured recruits, providing physical conditioning to recruits not meeting the minimum standard, and holds recruits pending medical

treatment.

What is the difference between combat service support and combat support?

The United States Army organizes its units into three general categories, which correspond to the role of the unit on the battlefield: combat arms (CA) (for example, infantry and armor), combat support (CS) (for example, communications and military police), and combat service support (CSS) (for example, supply and ...

What are the combat service support functions? In the United States, the term combat service support has been phased-out in favor of the term "sustainment." but the mission remains the same; to manage the logistics supply chain and provide all materiel, maintenance, transportation, health services, personnel services and other services required by the warfighting ...

What is a combat support MOS? Combat support jobs are direct operational support such as chemical warfare, combat engineer, military intelligence, security, and communications. Combat service support jobs are logistical support such as supply, maintenance, transportation, health services.
