It could, of course, also be argued that Pearson (who own Edexcel) keep it slightly easier to boost uptake!

Is Cambridge accepted in the USA? Our exams are accepted by some of the largest international recruiters in the USA including NYU, Northeastern University, Embry Riddle University and the University of Michigan. C1 Advanced is accepted by many universities and colleges including: University of Idaho.

Are Edexcel and Oxford the same? Cambridge and Oxford are major universities. Cambridge International Exams is an examination board, running IGCSE, A level and other such exam qualifications. Edexcel is another board which does just the same thing. Both of these also operate (and originated) in the UK, as do AQA and OCR.

What does Edexcel stand for? Edexcel - the name being a portmanteau of "education" and "excellence" - is one of the largest awarding bodies in the UK alongside AQA. It is the qualification brand name for publishing and education company Pearson.
