The Concorde Story: A Series of Questions and Answers

1. What was the Concorde?

The Concorde was a supersonic passenger jetliner that was jointly developed by the British and French governments. It was the first and only commercial aircraft to fly faster than the speed of sound.

2. When did the Concorde fly?

The Concorde first flew in 1969 and entered commercial service in 1976. It flew for over 20 years, being retired in 2003.

3. How fast did the Concorde fly?

The Concorde flew at a speed of Mach 2.04, which is twice the speed of sound. This allowed it to travel from London to New York City in just over 3 hours.

4. What was the Concorde's seating capacity?

The Concorde had a seating capacity of just over 100 passengers. This was due to its narrow fuselage and the need for a large fuel tank.

5. Why was the Concorde retired?

The Concorde was retired due to a number of factors, including the high cost of operation, the decline in supersonic travel after the September 11 attacks, and the increasing popularity of subsonic aircraft.
