Why ISO 27001 is better than NIST? The NIST CSF is best for organizations in the early stages of their cybersecurity journey or those looking for an organized, intentional approach. ISO 27001 is best for strengthening an existing cybersecurity program. ISO 27001 will help your business grow by demonstrating trust through a standardized certification.

Is ISO 27001 outdated? The new standard was published on October 25, 2022. After a three-year transition period, ending October 31, 2025, all ISO/IEC 27001:2013 certifications will expire or should be withdrawn. We will not conduct initial or recertification audits to the old standard after April 30, 2024.

Should I get SOC 2 or ISO 27001? SOC 2 is the de-facto compliance standard in North America, so if you do business with organizations in North America, you'll likely need a SOC 2 report. ISO 27001 is more popular globally, so if you work with

organizations outside North America, you'll likely need an ISO 27001.

What is the ISO 27005 standard for information security risk management? ISO 27005 is an international standard that outlines the procedures for conducting an information security risk assessment in compliance with ISO 27001. As previously said, risk assessments are a critical component of an organisation's ISO 27001 compliance initiative.
