What happened to aristocratic children during the French Revolution? Answer and Explanation: Yes, children were killed during the French Revolution. There are records of at least twenty children dying by guillotine with many more dying while in prison. The most famous of these deaths was Louis XVII who died in prison at the age of ten due to illness.

What happened in Paris during the French Revolution? 14 July 1789: Storming of Bastille A wave of revolutionary hysteria sweeps through Paris, leading to fears of a military coup. In retaliation, rebels storm the prison fortress of the Bastille, a symbol of royal authority. Paris falls from the King's control. Today this date is celebrated as Bastille Day in France.

What happened to the children in the French Revolution? The son, Louis-Charles (after his father death known as Louis XVII) died in prison from the bad conditions and tuberculosis at the age of 10. The daughter, Marie-Thérèse was eventually let go, and left to live with her mothers family in Austria. She died at the age of 72 without any children of her own.

Are there any aristocrats left in France?

What was Paris like before the French Revolution? Until the 1789 Revolution, Paris had a strict social hierarchy, whose customs and rules were established by long tradition.

What are the 5 causes of the French Revolution? The causes of the French Revolution can be narrowed to five main factors: the Estate System, absolutism, Enlightenment ideas, food shortages, and the American Revolution. The Estate System placed people into groups based on birth and was known as the Ancien Regime.

What were the political causes of the French Revolution? The Political Causes of the French Revolution are faulty administration, the autocracy of the king, the power of the court, the excessive spending of the royals, bankruptcy, the burden of taxes, etc.

Did any aristocrats survive the French Revolution? This was not quite the case. On the contrary, the nobility survived the Revolution, despite severe trials and heavy losses.

What happened to royals during French Revolution? One of the hallmarks of the French Revolution was retribution against the monarchs who had ruled France for centuries. The actual number of members of the royal family who were killed as a direct result of the French Revolution was three: King Louis XVI, his wife Marie Antoinette, and their son Louis XVII.

How many aristocrats were killed during the French Revolution? While reliable figures on the definitive number of people guillotined during the Revolution are hard to find, historians commonly project between 15,000 and 17,000 people were guillotined across France. The bulk of it occurred during the the Reign of Terror.

What happened to Louis XVI's children? Both of his sons died in childhood, before the Bourbon Restoration; his only child to reach adulthood, Marie Thérèse, was given over to her Austrian relatives in exchange for French prisoners of war, eventually dying childless in 1851.

Todaro's Economic Development: Key Concepts and Applications

Question 1: What is Todaro's Migration Model? Answer: Todaro's Migration Model explains the factors driving rural-to-urban migration in developing countries. It posits that individuals migrate to urban areas if they expect to earn higher wages than in rural areas, even if the urban unemployment rate is high. This is because they weigh the potential benefits of higher earnings against the costs of

unemployment.

Question 2: What is the Dual Economy Model? Answer: The Dual Economy Model divides an economy into two sectors: the modern sector with high productivity and wages, and the traditional sector with low productivity and wages. Migration from rural areas to urban areas is often driven by the desire to enter the modern sector.

Question 3: How does Education Affect Migration Decisions? Answer: Education plays a crucial role in migration decisions. More educated individuals are more likely to migrate to urban areas because they have higher expectations of earning higher wages in the modern sector. Additionally, education can provide skills that increase an individual's productivity in urban areas.

Question 4: What are the Implications of Migration for Economic Development? Answer: Migration can have both positive and negative consequences for economic development. On the one hand, it can lead to increased productivity and economic growth in urban areas. On the other hand, it can also result in brain drain from rural areas and exacerbate social problems in urban areas.

Question 5: How Can Governments Address the Challenges of Migration? Answer: Governments can implement various policies to address the challenges of migration. These policies include investing in rural development to create job opportunities and reduce the need for migration, providing skills training to increase the employability of migrants, and promoting social integration in urban areas to reduce social problems.
