**Who is prone to Huntington's disease?** Risk factors People who have a parent with Huntington's disease are at risk of having the disease themselves. Children of a parent with Huntington's have a 50 percent chance of having the gene change that causes Huntington's.

**Who did Woody Guthrie marry?** Woody Guthrie's Personal Life Woody had three wives: Mary, Marjorie, and Anneke. He married Mary in 1933, in Texas, and eventually they had three children: Gwen, Sue, and Bill. Woody named his first son after Will Rogers, a fellow Oklahoma native whom Woody greatly admired.
