### Common Acer Laptop Issues

- Laptop won't boot up
- Aspire computer won't reset
- Aspire not turning on
- Laptop keeps restarting
- Laptop stuck in restart loop
- Acer automatic repair
- Black screen

### Troubleshooting Your Acer Computer

#### Basic Troubleshooting Steps

- **Check power connections:** Ensure the laptop is properly plugged in and receiving power.
- **Reset the computer:** Hold down the power button for 15-20 seconds to force a restart.
- **Start in troubleshoot mode:** Press F8 or the DEL key during startup to access troubleshoot options.
- **Run hardware diagnostics:** Use Acer's built-in hardware diagnostics to identify any hardware issues.

#### Booting Troubleshooting

- **Restart the laptop in Safe Mode:** Press F8 or the DEL key during startup and select "Safe Mode."
- **Perform a startup repair:** Access troubleshoot mode and select "Startup Repair."
- **Reset the BIOS:** Remove the CMOS battery for 30 minutes to reset the BIOS settings.
- **Reinstall Windows:** If all other troubleshooting steps fail, consider reinstalling the operating system.

## Resetting Your Acer Computer

- **Reset using Windows Recovery:** Access troubleshoot mode and select "Reset this PC."
- **Reset without alt F10:** If the alt F10 key doesn't work, use Acer's Recovery Media Creator to create a recovery USB drive.
- **Hard reset:** Unplug the laptop, remove the battery, and press and hold the power button for 30 seconds.

## Specific Acer Troubleshooting

- **Acer laptop won't boot up:** Check the power connections, remove any external devices, and try booting in Safe Mode.
- **Acer laptop keeps restarting:** Check for overheating, run a hardware diagnostic, and perform a startup repair.
- **Acer Aspire not turning on:** Ensure the battery is properly installed, check the power cable, and try a hard reset.
- **Acer laptop stuck in restart loop:** Perform a startup repair, reset the BIOS, or reinstall Windows.

## Additional Troubleshooting Tips

- **Check your battery:** Run a battery health check or replace the battery.
- **Troubleshoot your screen:** Check for loose connections, update drivers, or perform a hard reset.

- **Force restart an unresponsive laptop:** Hold down the power button for 10-15 seconds.
- **Fix an Acer black screen:** Try different display settings, update drivers, or reinstall Windows.
- **Diagnose computer problems:** Use Windows Event Viewer or third-party software to identify any issues.
