Who can overturn a Supreme Court decision? When Congress disagrees with the Supreme Court about an interpretation of the Constitution, the only direct way to override that interpretation is for two-thirds of both houses of Congress to propose an amendment to the Constitution, which then must be ratified by three-quarters of the states.

Who does the Supreme Court answer to? The United States Constitution regulates the Supreme Court. The answer to both is the Constitution of the United States. "Supreme" means no court above them, final, "the court of last resort".

What is the rule of four? The "rule of four" is the Supreme Court's practice of granting a petition for review only if there are at least four votes to do so. The rule is an unwritten internal one; it is not dictated by any law or the Constitution.

Where can I read the Supreme Court decision? The opinions of the Court are published in the United States Reports. Printed copies of the U.S. Reports are available in many libraries nationwide. The most recent opinions of the Court are available in PDF on the Opinions page.
