**What is the lesson of the law of attraction?** The law of attraction is a universal principle that states you will attract into your life whatever you focus on. Whatever you give your energy and attention to is what will come back to you. When you focus on the abundance of good things in your life, you will automatically attract more positive things into your life.

**What is an example of the Law of Attraction in real life?** “To use the law of attraction to manifest your desires, always speak in favor of your desires, never against them.” For example, instead of saying “I’m worried things aren’t going to work out for me,” try shifting it to, “every action I take leads me closer and closer to things I desire.”

**How to master the Law of Attraction?**
