**What is the most predictive exam for Step 2 CK?** If time allows, you should complete both UWSAs, but UWSA2 seems to be the best predictor of your Step 2 CK score. When comparing NBMEs and UWSA, UWSA 2 seems to correlate most closely with test-day performance. When I was preparing for Step 2, I was also concerned about improving my stamina for test day.

**Is 240 a good score in Step 2 CK?** What is a good USMLE Step 2 CK Score? A good USMLE Step 2 CK score is between 240 and 260. However, what qualifies as a “good” score ultimately depends on the residency program you are applying to. If you want to match to your first-choice program, you should aim for a score at or above 256.

**What is an impressive Step 2 score?** The 25th percentile is around 232, while the 75th percentile is near 256. These percentiles mean that if you score at or below 232, you're in the bottom 1/4 of test takers, while if you score at or above 256, you're in the top 1/4.

**Is one pass of UWorld enough Step 2?** We recommend you do two full passes through UWorld's Step 2 CK question bank.

**Is Kaplan question bank better than UWorld?** UWorld charges \$320 if you want 90 days of access, \$370 if you want 180 days of access, and \$420 for a full year of access. The Kaplan Qbank products range in price from \$330 for 6 months of access to \$550. Yet the most popular option (and the one I would go with for Kaplan) is their middle package.

**What percent of students pass Step 2?** The Step 2 pass rate has been well over 90% for test-takers from MD and DO schools in recent years, according to the USMLE. But if you fail, USMLE policy allows up to four total attempts to pass any of the Step exams. As far as the impact of that failure on your residency prospects, a Step 2 fail is not a deal-breaker.
