**Whose as a relative pronoun example?** We use whose to introduce a relative clause indicating possession by people, animals and things: John works with that other chap whose name I can't remember. Shirley has a 17-year-old daughter whose ambition is to be a photographer. This is the book whose title I couldn't remember.

**What is the trick for who vs whom?** The commonly repeated advice for remembering whether to use who or whom is this: If you can replace the word with he or she or another subject pronoun, use who. If you can replace it with him or her (or another object pronoun), use whom. One way to remember this trick is that both him and whom end with the letter m.

**When to use who and whom exercises?** The answer is simple: If you can replace the word with "he" or "she" then you should use who. However, if you can replace it with "him" or "her," use whom. Let's look at some examples and do a who vs whom quiz.

**How do you teach who vs whom?** When in doubt, try this simple trick: If you can replace the word with he or she, use who. If you can replace it with him or her, use whom. A restrictive clause means that the information in the clause is necessary to understand the preceding noun. For a restrictive clause, use that.
