## Well Child Exam Soap Note

### What is a well child exam soap note?

A well child exam soap note is a medical record that documents a child's health and development during a well child visit. It includes information about the child's growth, development, immunizations, and any other health concerns.

## What are the benefits of a well child exam soap note?

Well child exam soap notes are important for several reasons. They help to:

- Track a child's growth and development
- Identify any health problems early on
- Provide a record of the child's immunizations
- Serve as a communication tool between the doctor and the child's parents or caregivers

## What information is included in a well child exam soap note?

Well child exam soap notes typically include the following information:

- The child's name, date of birth, and medical record number
- The date of the exam
- The reason for the exam
- The child's vital signs (temperature, heart rate, respiratory rate, and blood pressure)
- The child's growth measurements (height, weight, and head circumference)
- The child's developmental milestones
- The child's immunizations
- Any other health concerns

## How is a well child exam soap note written?

Well child exam soap notes are typically written in a SOAP format. SOAP stands for Subjective, Objective, Assessment, and Plan.

- **Subjective:** This section includes information that the child's parents or caregivers provide, such as the child's symptoms and concerns.
- **Objective:** This section includes information that the doctor observes during the exam, such as the child's vital signs, growth measurements, and developmental milestones.

- **Assessment:** This section includes the doctor's assessment of the child's health and development.
- **Plan:** This section includes the doctor's recommendations for the child's care, such as any follow-up appointments or referrals to other specialists.

### **Who can access a well child exam soap note?**

Well child exam soap notes are typically kept in the child's medical record. They can be accessed by the child's doctor, the child's parents or caregivers, and other authorized individuals.
