Maintaining Your 2008 Dodge Ram: Guide to Resets and Fixes**

Resetting the "Service Required" Indicator

- Turn the ignition on and do not start the engine.
- Press and release the gas pedal fully three times within 10 seconds.
- The "Service Required" message should now be reset.

Resetting Dodge Ram

- Locate the "Trip" button on the dashboard.
- Press and hold the "Trip" button for 5 seconds.
- The odometer will display "0000."
- Release the "Trip" button to reset.

Resetting Check Engine Light on 2008 Dodge Ram 1500

- Connect an OBD-II scanner to the diagnostic port.
- Select "Erase Diagnostic Trouble Codes" or similar option.
- Confirm the deletion of codes.
- Disconnect the scanner and restart the vehicle.

Last Manual Transmission Dodge Ram

- The 2012 Dodge Ram was the last model year to offer a manual transmission.

Resetting Service Maintenance

- Follow the steps for resetting the "Service Required" indicator.
- Additionally, you may need to perform specific maintenance tasks to reset the service interval. Refer to the vehicle's owner's manual for details.

TPMS Reset Button Location

- The TPMS reset button is located under the steering wheel on the left side of the dashboard.

Resetting to Factory Settings

- Turn off the vehicle and insert the key into the ignition.
- Turn the key to the "On" position but do not start the engine.
- Press and hold the "Up" and "Down" arrow buttons on the steering wheel for 10 seconds.
- The vehicle will emit a chime and the settings will be reset.

Resetting ECU

- Disconnect the negative battery terminal for at least 30 minutes.
- Reconnect the battery terminal.
- Start the vehicle and allow it to idle for a few minutes.
- The ECU will automatically reset and relearn parameters.

Resetting Ram 1500 Electronics

- Disconnect the battery terminal.
- Press the brake pedal for 30 seconds to discharge residual electrical energy.
- Reconnect the battery terminal.
- Start the vehicle and check if the electronics have reset.

Resetting "Perform Service" on 2008 Ram 3500

- Follow the steps for resetting the "Service Required" indicator.
- Additionally, check the vehicle's owner's manual for specific service requirements that may need to be performed.

Clearing Codes on Dodge Ram 1500

- Follow the steps for resetting the check engine light.
- If the codes persist, it is recommended to consult a qualified mechanic.

Resetting Uconnect on 2008 Dodge Ram

- Refer to the vehicle's owner's manual for specific instructions on resetting the Uconnect system.
- Alternatively, you can contact a Dodge dealership for assistance.
