Is BMW manual or automatic better? I think it primarily depends how you plan to use the car. The auto transmission is used in lots of vehicles so is known to be reliable. If you are planning to use the car for every day duties then I'd say an auto would be easier to live with, but nothing beats a manual for driver engagement.

Is manual better than automatic? If you do a lot city driving, an automatic may be easier to maneuver through stop and go traffic than a standard transmission. However, if performance and the driving experience matters to you, you might want to consider a manual. Another factor to keep in mind is if there'll be other people driving the vehicle.
