What is the investigative task in AP Stats? The Investigative Task is the final question in the AP Statistics free-response section, but we don't recommend saving it for last. Because this question is worth three times as much as any of the other free-response questions, you want to make sure you answer it well, or it could really impact your final score.

Is a 70% a 5 on the AP exam? Usually, a 70 to 75 percent out of 100 translates to a 5. However, there are some exams that are exceptions to this rule of thumb. The AP Grades that are reported to students, high schools, colleges, and universities in July are on AP's five-point scale: 5: Extremely well qualified.

What is the 5% rule in AP Stats? The traditional cutoff for a small p-value is 0.05, which means that there is only a 5% chance of obtaining the observed results, or something more extreme, if the null hypothesis is true. If the p-value is below this threshold, it is considered statistically significant and you can reject the null hypothesis.

How much is the investigative task worth on AP Stats? Before beginning work on the free-response section, read all 6 questions to determine which ones you feel most prepared to answer. Do them first. The 6th free-response question (called the

“investigative task”) is worth 25% of that section and usually takes 25-30 minutes to complete.
