**Sleeping with Your Smartphone: How to Break the 24/7 Habit and Change the Way You Work By Leslie A. Perlow**

In her book, "Sleeping with Your Smartphone," Leslie A. Perlow explores the impact of technology on our sleep and work habits. She argues that the constant use of smartphones and other devices is leading to a dangerous cycle of sleep deprivation and burnout.

**Why is it bad to sleep with your smartphone?**

There are many reasons why sleeping with your smartphone is bad for you. First, the light emitted from smartphones can interfere with your body's natural production of melatonin, a hormone that helps you fall asleep. Second, the constant notifications and messages from your phone can keep your mind racing and make it difficult to relax. Finally, keeping your phone close by can create the temptation to use it when you should be sleeping.

**What are the consequences of sleeping with your smartphone?**

Sleeping with your smartphone can have a number of negative consequences, including:

- Sleep deprivation
- Increased stress and anxiety
- Difficulty concentrating
- Reduced productivity
- Weight gain
- Increased risk of heart disease and diabetes

**What can you do to break the habit of sleeping with your smartphone?**

If you want to break the habit of sleeping with your smartphone, there are a few things you can do: \_\_\_\_\_

GETTING IT PRINTED HOW TO WORK WITH PRINTERS AND GRAPHIC IMAGING SERVICES TO

- Set a specific time to turn off your phone each night and stick to it.
- Create a designated "no-phone" zone in your bedroom.
- Find other relaxing activities to do before bed, such as reading a book or taking a bath.
- Make sure your bedroom is dark, quiet, and cool.
- If you find yourself unable to resist the temptation to use your phone before bed, consider seeking professional help.

### **How can you change the way you work to avoid burnout?**

In addition to breaking the habit of sleeping with your smartphone, there are a number of other things you can do to change the way you work and avoid burnout. These include:

- Set clear boundaries between your work and personal life.
- Take breaks throughout the day, and get up and move around every hour or so.
- Delegate tasks whenever possible.
- Learn to say no to additional work.
- Make time for activities that you enjoy outside of work.
- Get enough sleep.

By following these tips, you can break the habit of sleeping with your smartphone and change the way you work to avoid burnout. This will lead to a more productive and fulfilling life.
