What is the true story behind Flowers in the Attic? What Inspired 'Flowers in the Attic'? To do the opposite of burying the lead: no, Flowers in the Attic isn't real. Andrews' estate makes it clear there's no evidence solid enough to support that assertion.

What was the point of Flowers in the Attic? In large part, Flowers in the Attic drew its power because it gave voice to a visceral, adolescent feeling of being held hostage by your own family. Cathy is restricted by her mother, disapproved of by her mother, and ultimately abandoned by her mother.

What is the message in Flowers in the Attic? Flowers in the Attic in my opinion is a rather traumatic story about family betrayal and also touches on the controversial topics of incest and child abuse. The children are deceived by the person who should care about them the most - their mother.

What is the plot twist of Flowers in the Attic? The children realize that Corrine, not their grandmother, was poisoning them to secure her inheritance.

Who was the real villain in Flowers in the Attic? Corrine Dollanganger is one of the main characters of the Dollanganger series and the main antagonist of the novel Flowers in The Attic, as well as its 1987 film. She is also the main antagonist of the sequel book Petals On The Wind.

Why were Flowers in the Attic so controversial? The gothic horror classic about four siblings who spend three years locked in the attic of their grandparents' mansion while their mother tries to win back her inheritance, contains just about every kind of taboo: murder, religious fanaticism, child abuse, rape, incest.

What is the big secret in Flowers in the Attic? Because Malcolm is unaware that Corrine had children by her marriage to Christopher, the children must hide in a secluded upstairs room of the enormous Foxworth Hall until Corrine can break the news to her father. She assures the children that they will only be in the room for a few days.

Is the grandmother evil in Flowers in the Attic? Type of Villain She is a religious fanatic who physically and psychologically abuses her grandchildren, whom she keeps imprisoned in an attic with the complicity of her daughter Corrine

Dollanganger, the children's mother. In the 1987 film adaptation, she was portrayed by Louise Fletcher.

Why did the father disown his daughter in *Flowers in the Attic*? Corrine explains that her father, Malcolm, disowned her for eloping with Christopher, who was actually her biological half-uncle (her father's younger half-brother) and they were disinherited.

Did the brother and sister in *Flowers in the Attic* sleep together? In the book, the first time Cathy and her brother Chris have sex, he rapes her. This rape does not make him the villain so much as a victim of his own hormones.

Why did the children have to hide in *Flowers in the Attic*? Their destitute mother tells them that in order to regain the fortune from which she has been disinherited, they must hide in their grandparents' vast attic for a few days so she can persuade their grandfather to reinstate her as his heir.

What is the original plot of *Flowers in the Attic*? "Flowers in the Attic: The Origin." The 1979 novel *Flowers in the Attic* introduced readers to the twisted Foxworth family. In the book, siblings are imprisoned in a grand mansion as their mother tries to win back the love, and fortune, of her dying estranged father.

What is the lesson of *Flowers in the Attic*? *Flowers in the Attic* Review It explores taboo themes like family secrets, betrayal, and forbidden love, which add a mysterious and intriguing layer to the plot. The book delves into the psychological impact of confinement and abuse, making it a thought-provoking and unsettling read.

What happened to the twins in *Flowers in the Attic*? The twins' imprisonment has a negative impact on their health. They slowly grow weaker and lose much of their enthusiasm for life. After their grandmother feeds them rat poison disguised as a dessert, Carrie and Cory fall violently ill. Cory dies in the hospital.

How is Corrine related to Christopher? As well as being half-uncle and niece, it is revealed Chris and Corinne were three-quarter brother and sister as they shared the same mother but their fathers were father and son, making them more closely related than half siblings but less than full siblings.
