2. Who is Ali H. Soufan?

Ali H. Soufan is a highly respected FBI agent who spent over a decade investigating Al Qaeda. He was a key figure in the interrogation of Khalid Sheikh Mohammed, the mastermind of the 9/11 attacks, and has written several books on terrorism and counterterrorism.

3. What are some of the key findings in "The Black Banners"?

Soufan's book reveals that the CIA's use of enhanced interrogation techniques, such as waterboarding, produced unreliable information and in some cases actually hindered the investigation. Thou Shalt Not Be Aware: Society's Betrayal of the Child (Alice Miller)

Alice Miller, a renowned psychoanalyst and author, coined the phrase "Thou shalt not be aware" to describe the unspoken societal imperative that children should suppress their awareness of parental abuse and neglect. This betrayal of the child has severe consequences for their emotional and psychological well-being.

1. What is the significance of Miller's phrase "Thou shalt not be aware"?

Miller's phrase exposes the tacit agreement within society to deny children's experiences of abuse. By silencing children and labeling their voices as unreliable, society colludes with the perpetrator and perpetuates the cycle of violence.

2. How does this societal betrayal manifest in practice?

Children who are abused are often taught to believe that they are to blame or that their experiences are not significant. They may be threatened, gaslighted, or denied access to support. This silencing reinforces the child's sense of isolation and shame.

3. What are the consequences of society's denial of child abuse?

Children who are not allowed to acknowledge their experiences often develop lasting psychological problems, including depression, anxiety, and post-traumatic stress disorder. They may also struggle with forming healthy relationships and trusting others.

4. How can we break the cycle of society's betrayal of children?

To end the cycle, we must challenge the belief that protecting the abuser is more important than protecting the child. We need to create a culture where children's voices are heard, believed, and respected. This requires education, awareness, and a willingness to intervene when abuse is suspected.

5. What is Miller's message for survivors of child abuse?

Miller's message is one of hope and healing. She encourages survivors to reclaim their own voices and to seek support. She believes that by confronting the past and breaking the cycle of silence, survivors can regain a sense of their own worth and live full and meaningful lives.
