Service intervals are just under 20,000 miles for a full engine strip down and 600 miles for an oil, oil filter and air filter change, which are good compared to a competition MX bike where things are measured in hours, but still not really long enough for a committed trail rider or around the world adventurer.

How often should you change the oil on a 450 dirt bike? Factors to Consider Mineral Oil: change every 2,000 - 3,000 miles. Semi-Synthetic Oil: change every 5,000 - 6,000 miles. Synthetic Oil: change every 7,000 - 10,000 miles.

How often should I change the oil on my CRF450R? Honda recommends changing the oil and oil filter on a CRF450R after every six races, or after every 15 hours of use. Luckily, an oil service on a CRF450R can typically be done in 10 minutes or less.

How much does a CRF450R weight wet? At 245 pounds wet on the Dirt Rider automotive scales, the CRF450R is heaviest in this comparison, but you wouldn't assume that after riding it. This is one sharp, nimble, and responsive motorcycle that rewards a rider using proper technique.

How long can a Honda go between oil changes? Although an oil change is only required every 7,500 miles or so, many drivers change their oil once every 5,000

miles. This helps to ensure that the engine lasts as long as possible. If your Honda Maintenance Minder™ light does not come on within the space of a year, schedule service and change the oil anyways.

What are major service intervals? The difference between major and minor service is significant. Typically, minor services are generally performed at 7,500, 15,000, 45,000 and 75,000 miles while major services are performed at 30,000, 60,000 and 90,000-mile intervals.

How long do 450 engines last? For your average joe/trail rider I would push it to 80-100 hours. The key is frequent oil changes and a clean air filter. A well maintained 450 ridden by a fast motocross guy will easily go 60 hours on a topend (piston,rings, timing chain).

How often should you service a 4-stroke dirt bike? Regular Riding: A five to ten hour old oil change schedule is what the majority of two-stroke (Gearbox Oil) and 4-stroke engine riders abide by, and it's what we recommend sticking to.
