

# 2001 dodge caravan owner manual rosielutions

## Download Complete File

How to Reset Your Dodge Caravan\*\*

### **Reset Button Location:**

- There is no physical reset button on the Dodge Caravan.

### **Manually Resetting the Computer:**

- **Method 1: Disconnect the Battery**

Disconnect the negative battery terminal for 30 minutes. This will discharge the electrical system and clear the computer's memory.

- **Method 2: Reset the Fuses**

Locate the fuse box under the dashboard or in the engine compartment. Remove the ignition fuse for 10 minutes and reinstall it.

### **Resetting Codes:**

- **Scanner:** Use a code scanner to read and clear trouble codes from the computer.
- **Manual Reset:** Disconnect the negative battery terminal and press the brake pedal for 30 seconds. This will drain the electrical system and reset most computer-stored codes.

### **Resetting Engine Control Module (ECM) and Powertrain Control Module (PCM):**

- **Method 1: Flashing**

Take your vehicle to a dealer or mechanic for a "flash" update, which involves reprogramming the ECM/PCM with the latest software.

- **Method 2: Manual Reset**

Disconnect the negative battery terminal for 30 minutes, reconnect it, and start the engine. Shift the transmission into each gear and hold it for 30 seconds. This may manually reset the ECM/PCM.

### **Resetting Key:**

- **Method 1: Smart Key**

Insert the key into the ignition and turn it to the "On" position without starting the engine. Hold the unlock button on the key fob until the vehicle beeped twice.

- **Method 2: Regular Key**

Insert the key into the ignition and turn it to the "Accessory" position (one click before "On"). Hold the lock and unlock buttons on the key fob until the vehicle beeped twice.

### **Resetting AC System:**

- Turn the engine off and wait 10 seconds.
- Press and hold the "Auto" button on the climate control panel until the "A" light flashes.
- Release the button and the AC system will reset.

### **Additional Information:**

- **2001 Dodge Caravan MPG:** 18 mpg city / 25 mpg highway
- **Code 404:** EGR system malfunction
- **Code 420:** Catalyst system efficiency below threshold
- **Code P0455:** Evaporative emission control system leak detected

- **EGR Valve:** Regulates exhaust gas recirculation to reduce emissions
- **ECU Hard Reset:** Resets the entire computer system, including all settings, adaptations, and stored codes
- **Touch Battery Cables Together:** No, this does not reset the computer. It discharges the electrical system but does not clear the computer's memory.
- **Dashboard Reset:** Press and hold the "Trip" and "Cancel" buttons on the instrument cluster until the display resets.
- **TPMS Reset Button:** On the 2008-2019 Dodge Grand Caravan, the TPMS reset button is located on the driver's side footwell behind a small panel.
