**What is High-Rise J. G. Ballard?** As with Ballard's previous novels *Crash* (1973) and *Concrete Island* (1974), *High-Rise* explores the ways in which modern social and technological landscapes could alter the human psyche in provocative and hitherto unexplored ways. It was adapted into a film of the same name in 2015 by director Ben Wheatley.

**What the heck is High-Rise about?** The film is set in a luxury tower block in 1975. Featuring a wealth of modern conveniences, the building allows its residents to become gradually uninterested in the outside world. The infrastructure begins to fail and tensions between residents become apparent, and the building soon descends into chaos.

**How old is Robert Laing in High-Rise?** Following his sister Alice's advice, the 30-year-old Laing moves to the isolated development after his divorce, seeking a fresh start amid the private luxury of the 40-floor Brutalist building.

**What is the message of High-Rise?** *High-Rise* explores and reveals Ballard's ideas about the quick mutability of reality, and the kind of mental state most likely to adapt and succeed in times of extreme and rapid change in an isolated environment.

**What is the book High-Rise about?** *High-Rise* is a 1975 novel by British writer J. G. Ballard. The story describes the disintegration of a luxury high-rise building as its affluent residents gradually descend into violent chaos.
