3 2 1 Puzzle: Time to Test Your Mind

Prepare yourself for a brain-teasing puzzle that will challenge your logical thinking and problem-solving skills. The 3 2 1 puzzle, also known as the Time Weebly puzzle, has been puzzling minds for generations.

The Puzzle:

You have three identical boxes, labeled 1, 2, and 3. Each box contains a colored ball, either red, blue, or green. You know that:

- Box 1 contains a blue ball.
- The ball in box 2 is not green.
- The ball in box 3 is the same color as the ball in box 2.

Your Task:

Using only these clues, can you determine the color of the ball in each box?

Answering the Puzzle:

- **Step 1:** Since box 1 contains a blue ball, we know that box 2 and box 3 cannot contain blue balls.
- **Step 2:** Box 2 cannot contain a green ball, so it must contain a red ball.
- **Step 3:** Box 3 contains the same color as box 2, so it also must contain a red ball.

Therefore, the colors of the balls in the three boxes are:

- Box 1: Blue
- Box 2: Red
- Box 3: Red

How do I update my Humax software? Please press Home -> Settings -> System Settings -> System Information -> and press 'OK' button on Check New Software.

What is happening with Humax? From 28th February 2024, we will no longer support Humax T1000 set-top boxes. What will change? Any features that require an internet connection will no longer be accessible. This includes access to all apps and features such as Search, the Backwards Programme Guide and image thumbnails.

How do I update channels on my Humax box?

How do I access my Humax settings?

What model is my Humax? The model name is located on the bottom of the product.

Is there a reset button on a Humax box? If your Humax has no guide, is unreliable or failing to connect to IceTV's servers it could be the Humax needs a simple reset by switching it off at its switch at the rear of its box, waiting about half a minute then switch it on again.

What is the life expectancy of a Humax box? To try and answer the question, I would say the average life of the electronics in a Humax PVR is around ten years but a percentage will fail sooner than that.

Are Humax boxes still available? All Humax Freesat models have been discontinued, although if you own a Humax model we're more than happy to continue to provide support after your warranty period. We also Sell "New Old" Stock of Humax & Also Refurbished Devices from the Humax Freesat Range. HDR1100 being one of the most popular.

Why is Humax not working? My Humax box is not turning on The first thing to check is that the power unit is working properly. If no light is on, then the power unit isn't working so may need replacing.

Why have I lost channels on my Humax box? If you encounter channels missing from your TV guide, put your Set Top box into standby for 30 seconds and then switch it back on again. This should see everything restored; If this does not work you'll need to do a quick 'Freesat channel scan'.

How do you manually tune a Humax box? Select Manual search. In the Channel field press right arrow, scroll up or down and select the first channel number from your list. In the Transmission field leave it on the default DVB-T for all channels except the HD channel; for the HD channel it must be changed to DVB-T2. Press Search.

What channels are on demand with Humax? Which On Demand players can I access? BBC iPlayer, ITV Hub, Demand5, BBC Sport, Netflix (subscription required), UKTV Play, TVPlayer, France24, Youtube, Rakuten TV (subscription required), STV Player, BBC News, Ketchup and Pop Fun.

How do I update the software on my Humax box? Please press Home -> Settings -> System Settings -> System Information -> and press 'OK' button on Check New Software.

What is STB mode on Humax? Its very easy to switch to the Non-Freesat, just enter your boxes menu, now depending on your model you may see the Non-Freesat (or STB Mode on Humax) option in the first level, but if you don't, just open the Setting option, then select the Non-Freesat. You can then use a list like this very handy one on Wikipedia.

Does Humax have an app? Download the Humax Aura app to a compatible smart device and stream Live TV and your recordings around the house. Set reminders and schedule recordings right from the app or download recorded shows straight to your device to take with you on the go.

What brand is Humax? Humax (Korean: ???) is a consumer electronics company. Founded in South Korea in 1989, it manufactures set-top boxes, digital video recorders and other consumer electronics. It is publicly traded on KOSDAQ.

What is the purple light on the Humax box? The LED colour indicates certain functions of your box: • Red emits while the box is in standby mode. Blue emits while

the box is in operation mode. Purple emits while recording is in progress. Orange emits while recording is in progress during standby mode.

How do I search for channels on my Humax receiver? In this case, go to HOME>SETTINGS>Channel Settings>Search Channels and search for more channels. Select the appropriate language from the list. Set the search options and then search channels.

How do I access Humax settings? It's now in the top right-hand corner of the screen. So pressing "up" will take you there. That changed with the 1.01.11 software update.

How do you soft reset a Humax? Press and hold the Channel DOWN button/arrow on the front/top of your set top box and at the same time switch it back on at the mains or reconnect the power cable.

Does factory reset on Humax delete recordings? Reset All Settings (NOT & Format HDD or you'll delete your recordings). After the reset check its default padding settings, if they are as you had previously set them (we advise +20 and -1 minutes) then quit the setup and leave the Humax to login to IceTV and pick up its recording schedule in the next 15 minutes.

Why isn't my Humax working? My Humax box is not turning on The first thing to check is that the power unit is working properly. If no light is on, then the power unit isn't working so may need replacing.

How do I update my box? 1> Check for Updates: Go to the settings menu on your Android TV box. Look for an option like "About" or "System" and then "System Update" or "Software Update." This varies slightly depending on the manufacturer and the version of Android your TV box is running.

Does Humax have an app? Download the Humax Aura app to a compatible smart device and stream Live TV and your recordings around the house. Set reminders and schedule recordings right from the app or download recorded shows straight to your device to take with you on the go.

How do I retune my Humax TV?

What are dinosaur dossiers in ARK: Survival Evolved? You can find them scattered around the landscape of The Island, Scorched Earth, Aberration, and Extinction as collectables among other Explorer Notes. The dossiers tell you about the behavior and habits of all creatures present in ARK, written by the survivor Helena, who is mostly correct with her observations.

How many dossiers are there in ARK? Currently, there are 101 Creature Dossiers on The Island.

What is an R dino ARK? R-Creatures are variants of Creatures local to specific biomes of Genesis: Part 2, and are divided into two groups: Eden and Rockwell. In addition to having totally new color patterns and regions from their normal counterparts, they also have a 5% damage increase and 3% less health when tamed.

How many Creatures in ARK: Survival Evolved? To quickly find ARK Dossiers we've made online, I usually just Google the species' name such as "Doedicurus", first link. Win for Science?! There are 195 different species as well 301 variants, for a total of 496 various creatures to be found in different ARKs.

What do Tek Rex do? The tek rex is basically just a rex that is 20% more powerful in every way, and unlike the Giga it has no downside.

What is the most damaging Dino in ARK?

What is the biggest entity in Ark?

How to tame Rhyniognatha? You need to kill a male and get the pheromone from its inventory. Then, bring one of your tames close to a female Rhyniognatha and feed your tame the pheromone. Attack the female Rhyniognatha until its HP gets less than 10% and after some attacks, it will impregnate your tame and flee.

Where is the Carcharodontosaurus dossier? This is for anyone having trouble finding the Carcharo dossier in ASA. It's at about 32.8, 85.1 but even so I couldn't find it without bringing a Dire Wolf, and couldn't find any other guides. It's under a ruin, behind a CORNER inside it.

What is Dino vs Xeno? Dino V. Xeno is a casual, straight to the point, yet deeply crafted tower defense game, where you can enlist 10 upgradable dinos, plus 14 additional special towers, to battle alien hordes. With randomized elements, 51 levels and 20-40 hours of gameplay, DVX is a tailor made for tower defense lovers.

Can you tame R Giga? Very easy tame, use 3 metal Dino gates with a bear trap in the middle, lead it in on foot then run around the back and close it up with a 4th. If you are taking a giga DO NOT pick up your trap until it is tamed.

What is the coolest ARK dino? The Argentavis is arguably the best creature on The Island in ARK: Survival Ascended due to its flexibility as a mount. Able to pick up and carry most medium creatures, including the Thylacoleo, the Argie makes the taming of these dinos incredibly easy.

What is the most overpowered dinosaur in ARK? Rex is, unsurprisingly, one of the strongest dinosaurs in the game. Since it has a high melee attack, it is useful in PvP and PvE fights. Also, this dinosaur doesn't disappoint when taking over bases during raids, especially if equipped with the Tek Rex Saddle. Their roar threatens enemies whenever they attack as well.

What does imprinting a dino do? A fully imprinted dinosaur ridden by whomever imprinted on it is capable of taking on enemies more than twice as powerful as it would've been unimprinted. All of its bonuses are multiplicative. 20% increased health means 20% more time to dish out damage.

What does a dino leash do in ARK? Electronic leash to keep your dinos from wandering too far. The Dino Leash is an item in Extinction.

What does spaying a dino do in ARK? Spay is an option on the action-wheel of a tamed dino. Once a female creature is spayed, it can no longer mate and thus is not able to be used in breeding ever again, but they can be cloned through the Tek Cloning Chamber.
