**What are the top dermatology journals?**

**What does clinical dermatology include?** Clinical dermatology encompasses all skin disorders and diseases as well as the manifestations which occur in the skin but which originate in another part of the body.

**What is the most respected medical journal in the world?** NEJM Today Today, NEJM is the most widely read, cited, and influential general medical periodical in the world. More than a million people from nearly every country read NEJM in print and online each week. Each year, NEJM receives more than 16,000 research and other submissions for consideration for publication.

**Which dermatology journals have a low impact factor?** Interestingly, two of the Indian dermatology journals with a lower impact factor, namely IJD and IJT, have a higher SJR score of 0.403 and 0.472, respectively. A crucial advantage of SJR is allowing comparison between journals of various disciplines.

**What are the most common dermatology conditions?**

**What is the difference between a dermatologist and a medical dermatologist?**

One of the key distinctions between a medical dermatologist and a cosmetic dermatologist is their different goals. A cosmetic dermatologist works to give you smooth, younger-looking, and attractive skin. Meanwhile, a medical dermatologist aims to cure your ailments and improve your skin's health.

**Is there any difference between skin specialist and dermatologist?** An esthetician, or skin care specialist, provides services geared toward improving the external appearance of your skin. A dermatologist specializes in the health of your skin. Dermatologists are doctors trained to diagnose specific skin conditions and treat them.

**How do you know if a medical journal is reputable?** Resources to help you assess whether a journal is reputable or genuine. Genuine journals should have a named editor and editorial board, with full and traceable contact details, be peer-reviewed, and publish information on charges, procedures, copyright and licences openly on their website.

**What is the highest ranked journal?**

**What is the most cited medical paper of all time?** The Mini Mental State Examination (MMSE) is one of the most ever cited research papers in medical science. Conclusion: The paper by Marshal Folstein and colleagues is a very highly cited paper and probably the most frequently cited ever in medicine.

**What is a good bad impact factor journal?** You can find a journal's impact factor by referring to the Journal Citations Report (JCR) or Scopus. ? What is an average 'good' impact factor? In general, an impact factor of 10 or higher is considered remarkable, while 3 is good, and the average score is less than 1.

**What is the open access journal of dermatology?** The Open Dermatology Journal is an open access journal that publishes original research articles, reviews/mini-reviews, letters and guest edited thematic issues in all areas of experimental and clinical research in dermatology, skin disorders, cosmetic surgery, dermatitis, dermatopathology, dermatological surgery, ...

**What is the name of the dermatology journal?** Published since 1955, Indian Journal of Dermatology (IJD®), (ISSN: Print- 0019-5154, Online - 1998-3611) is the oldest published journal of Dermatology in Asia and one of the oldest peer-reviewed journals dedicated to this particular discipline.

**What is the acceptance rate for the Journal of the American Academy of Dermatology?** The overall acceptance rate is less than 50%. The author should
