**What is the Herman and Chomsky model of propaganda?** First presented in their 1988 book *Manufacturing Consent: The Political Economy of the Mass Media*, the propaganda model views corporate media as businesses interested in the sale of a product—readers and audiences—to other businesses (advertisers) rather than the pursuit of quality journalism in service of the public.

**What are the five filters of media Chomsky?** The five filters are: (1) ownership; (2) advertising; (3) official sources; (4) flak; and (5) marginalizing dissent. The author discusses the applicability of Herman's and Chomsky's propaganda model today.

**What is flak in communication?** Flak and the enforcers: "Flak" refers to negative responses to a media statement or program (e.g. letters, complaints, lawsuits, or legislative actions). Flak can be expensive to the media, either due to loss of advertising revenue, or due to the costs of legal defense or defense of the media outlet's public image.

**What was Chomsky's famous quote?** If we don't believe in freedom of expression for people we despise, we don't believe in it at all.

**What is Chomsky's model?** The Chomsky model, propounded by the eminent linguist Noam Chomsky, constitutes a framework that revolutionized the

understanding of language structure and grammar. In the context of AI, the Chomsky model serves as a blueprint for developing language processing algorithms and machine learning techniques.

### **What are the 7 common types of filters in communication?**

**What are the examples of media filter?** Here are some commonly used filter media: Mechanical/Physical Filter Media: These filter media rely on physical barriers to separate particles from the fluid. Examples include woven or non-woven fabrics, such as polyester, cotton, nylon, or polypropylene, which can capture particles based on their size.

**What are the main filters in filter theory?** The filter theory states that there are three filters that individuals apply when choosing their partner. The three filters of the filter theory are sociodemographic characteristics, similarity in attitudes and complementarity.

**What is Phatic communication?** Phatic communication is verbal or non-verbal communication that has a social function, such as to start a conversation, greet someone, or say goodbye, rather than an informative function. Learners sometimes find it difficult to recognise phatic communication.

**What is imperviousness in communication?** Impervious responses fail to acknowledge the other person's communicative attempt. Interrupting responses occur when one person begins to speak before the other is through making a point. Irrelevant responses are totally unrelated to what the other person was saying.

**What is invisibility in communication?** Invisible communication refers to nonverbal and implicit forms of communication that do not rely on the use of words. These forms of communication can include body language, facial expressions, gestures, eye contact, tone of voice, posture, and other cues that convey meaning and emotional states.

**Why is Noam Chomsky so famous?** He created or co-created the universal grammar theory, the generative grammar theory, the Chomsky hierarchy, and the minimalist program. Chomsky also played a pivotal role in the decline of linguistic behaviorism, and was particularly critical of the work of B. F. Skinner.

**What is Noam Chomsky's belief?** Chomsky believes individuals can gain job satisfaction and a sense of fulfilment and purpose by controlling their productive life. Chomsky argues that unpleasant and unpopular jobs could be fully automated, carried out by specially remunerated workers, or shared among everyone.

**Who said no one ever learned anything by talking?** Having led his namesake CNN TV show, Larry King Live, from 1985 until 2010, he once said of his interview style: "I remind myself every morning: Nothing I say this day will teach me anything. So if I'm going to learn, I must do it by listening. I never learned anything while I was talking."

**What are the weaknesses of Chomsky's theory?** Limitations of Chomsky's theory He did not study real children. The theory relies on children being exposed to language but takes no account of the interaction between children and their carers. Nor does it recognise the reasons why a child might want to speak, the functions of language.

**What is Krashen's theory?** What is Krashen's input theory? Stephen Krashen's input hypothesis states that language learners must receive language input that is at their level and then slightly beyond so that the process remains both comprehensible and challenging.

**What is David Crystal theory?** David Crystal has the theory that children learn language in five stages, which aren't clearly defined and some tie in with each other. These stages are: Stage One: This is where children say things for three purposes: To get something they want.
