Strategic Management Final Exam: Key Questions and Answers

Question 1: Define strategic management and explain its importance in business organizations.

Answer: Strategic management is a process by which organizations set long-term goals, develop strategies to achieve those goals, and implement and evaluate the strategies. It is essential for organizations to engage in strategic management to gain a competitive advantage, adapt to market changes, and ensure long-term sustainability.

Question 2: Discuss the role of environmental scanning in strategic management.

Answer: Environmental scanning involves gathering, analyzing, and interpreting data about the external environment. It helps organizations identify opportunities and threats, assess market trends, and understand the competitive landscape. By conducting thorough environmental scans, organizations can develop strategies that are aligned with the external environment.

Question 3: Explain Porter's Five Forces Model and discuss its implications for strategy formulation.

Answer: Porter's Five Forces Model analyzes the competitive forces that shape an industry: rivalry among existing competitors, threat of new entrants, threat of substitutes, bargaining power of suppliers, and bargaining power of buyers. Understanding these forces allows organizations to develop strategies that neutralize or mitigate competitive threats and exploit opportunities.

Question 4: Describe the Ansoff Matrix and how it can be used for growth strategies.

Answer: The Ansoff Matrix classifies market opportunities into four categories: market penetration, market development, product development, and diversification. It helps organizations identify potential growth strategies by considering the relationship between existing products and markets and new products and markets.

Question 5: Explain the Balanced Scorecard and its role in evaluating strategy implementation.

Answer: The Balanced Scorecard is a performance measurement framework that translates an organization's strategy into a set of measurable objectives. It uses four perspectives: financial, customer, internal business processes, and innovation and learning. By tracking performance across these perspectives, organizations can assess the effectiveness of their strategy implementation and make necessary adjustments.
