A light freeze is considered 28°-32°F, and a hard freeze below 28°F. However, any temperature below 25°F is dangerous territory for most vegetable plants.

**What vegetable seeds germinate in cold weather?** Most cool-season vegetable crops can be winter sown, including: spinach, kale, lettuces and greens, beets, cabbage, broccoli, Brussels sprouts, leeks and kohlrabi. Herbs such as thyme, salvia, oregano, cilantro and parsley can all be winter sown as well.

**How do you answer a short story?** When responding creatively to a short-story collection, you have a number of options. For example, you can draw on a specific moment in the text; re-tell an incident from a different point of view; describe what happens after the end of a story; or explore one of the recurring settings.

**What are the questions for the short story?**

**What are the elements of a short story with example?** These elements are: setting, plot, characters, conflict, and theme. When and where the story takes place is referred to as the setting. The settings of short stories usually occur in one area or place because of the limited length of the story.

**Why are short stories impactful?** The short story offers a unity that the novel can never have simply because of its length. The writer (and the reader) can move the story forward WITHOUT

entire world of the short story in their mind at once. This makes the experience of writing (and reading) a great short story immensely powerful.

**What is the message of the story?** A story's message, or theme, is what the author wants to teach you through his or her writing. Some stories have a specific kind of message called a moral, or a life lesson. You can find the message of a story by looking at the characters' actions and focusing on what is repeated throughout the story.

**What is the plot of the short story?** The plot and structure of a short story (otherwise known as a story arc) is the logical order in which events happen in the story. It's important to set the scene, introduce the inciting incident and obstacles, then show the resolution.

**What are the 5 story questions?** One of the best practices for writers is to follow "The 5Ws" guideline, by investigating the Who, What, Where, When and Why of a story. If you can't identify what makes your story unique and interesting, chances are nobody else will either.

**What is the main message of the short story?** A theme in a story is the deeper message or central idea. It comments on human experience, and more often a story relates to real life situations. All stories have at least one theme. A theme gives the general view of the story.

**What are the short answer questions?** Short answer questions (or SAQs) can be used in examinations or as part of assessment tasks. They are generally questions that require students to construct a response. Short answer questions require a concise and focused response that may be factual, interpretive or a combination of the two.

**What is the main purpose of a short story?** Short stories are self-contained works of prose fiction whose function is to impart a moral, capture a moment, or evoke a certain mood. Short stories are often more focused, as all the elements within—plot, character, pacing, story structure, and so on—must work together towards this common goal.

**What are the 5 stages of a story?** Elements of Plot. To keep your reader engaged and interested, your story should include these plot elements: exposition, rising action, climax, falling action, and resolution.

**What is a conflict in a story?** Conflict is the struggle that the protagonist goes through in a story. All protagonists have something to overcome, whether it's a battle against another character or an attempt to escape the unfairness of their situation in life. This conflict is a key component of what keeps us interested in a story.

**What is a very short story called?** A piece of fiction shorter than 1,000 words is considered a “short short story” or “flash fiction,” and anything less than 300 words is rightfully called “microfiction.”

**What are three most popular short story types?** While there are many different short story styles, here we will consider three popular short story types: lyrical, flash fiction, and vignette.

**What is the most important thing in a short story?** Create conflict! Every short story needs to have a single point of conflict. As a rule, no more than one is required for a short story. The character should have either a dilemma, a revelation, or be faced with a decision of some kind. Surrounding that conflict should be a good dose of tension.

**What is a response to a short story?** The purpose of a response to literature is to state an opinion about a character's traits, the setting, plot, theme, or moral of the story. Typically, the essay is organized with a brief summary of the story, followed by an opinion that is supported by evidence from the text.

**How do you write a response to a short story essay?** Start by introducing the text and your thesis statement. In the body paragraphs, discuss your main points and provide evidence from the text to support your argument. Use quotes and examples to illustrate your points. In conclusion, summarize your main points and restate your thesis statement.

**How do you respond to a short answer question?**

**How do you answer the question what's your story?** My encouragement is to take a moment to think about that question. Don't dive right into your factual self, but consider answering it with what it is you truly love and what makes you feel most alive.
