Q: What are the benefits of using SMM7?

A: SMM7 offers several benefits, including:

- Accuracy and consistency: It provides a standardized method for measuring work, reducing the risk of errors and disputes.
- Transparency: It allows different parties to clearly understand the scope of work and its cost.
- Efficiency: It simplifies the process of creating BoQs and calculating costs.

Q: Who uses SMM7?

A: SMM7 is primarily used by professionals in the construction industry, such as:

- Architects
- Engineers
- Contractors

- Clients
- Quantity surveyors

Q: Where can I find more information about SMM7?

A: The Royal Institution of Chartered Surveyors (RICS) is the custodian of SMM7. More information, including the SMM7 document itself, can be found on the RICS website: <https://www.rics.org/uk/uphold-professional-standards/sector-standards/construction/standard-method-of-measurement/>
